New Zealand joins DesignView

As of 29 June 2020, the Intellectual Property Office of New Zealand ([IPONZ](#)) has made its design data available to the [DesignView](#) search tool.

With IPONZ on board, DesignView now contains data from 72 participating offices.

With the addition of more than 51,000 industrial designs from IPONZ, DesignView provides information and access to more than 16.2 million designs in total.

Since the introduction of DesignView on 19 November 2012, the tool has served more than 5.6 million searches from 163 different countries, with the UK, Germany and China among the most frequent users.

The integration of IPONZ, which follows its [integration in TMview](#), is a concrete result of the International Cooperation programme managed by the EUIPO in collaboration with its international partners. It follows the implementation of TMview.
