

[News story: HMCTS Reform Programme](#)

We have started a very ambitious programme of court reform, which aims to bring new technology and modern ways of working to what is – and will remain – the best justice system in the world.

The principles that underpin the system are enduring. But our systems and processes have not kept pace with the world around us. We know we can make justice less confusing, easier to navigate and better at responding to the needs of the public.

In collaboration with the senior judiciary and the Ministry of Justice, we are investing £1bn to reform our courts and tribunals system. We have made a good start. But we can't do it alone; and we certainly can't do it well unless we involve all those who work within it and care about it.

We are keen to share our plans, listen to those who use our courts and tribunals, and work together with our partners to achieve the best possible outcome.
