GCSE 9 to 1 grades

The new 9 to 1 GCSE grades

The vast majority of students taking GCSEs in England in 2019 will receive grades from 9 to 1. Students taking 5 lesser-taught GCSE subjects (Biblical Hebrew, Gujarati, Persian, Portuguese and Turkish) will receive letter grades in 2019 before they become numerical (9 to 1) in 2020.

9 things to know about the new GCSE grades

- 1. GCSEs in England have been reformed and are graded with from 9 to 1, with 9 being the highest grade.
- 2. GCSE content is more challenging.
- 3. Fewer grade 9s are be awarded than A*s.
- 4. The new grades are being brought in to signal that GCSEs have been reformed and to better differentiate between students of different abilities.
- 5. In the first year each new GCSE subject has been introduced, broadly the same proportion of students get a grade 4 or above as would have got a grade C or above in the old system.
- 6. These changes are only happening in England. Wales and Northern Ireland are not introducing the new 9 to 1 grading scale as part of their changes to GCSEs.
- 7. English language, English literature and maths were the first to be graded from 9 to 1 in 2017.
- 8. Another 20 subjects had 9 to 1 grading in 2018, with most others following in 2019. During this transition, students received a mixture of letter and number grades.
- 9. You can see how the 9 to 1 grades compare with the A* to G scale in our GCSE grading postcard.

GCSE science

GCSEs for science have changed in England. Students taking separate science GCSEs now get a grade from 9 to 1 in each subject. Combined science draws content from all three subjects and students receive an award worth two GCSEs, consisting of two equal or adjacent grades.

5 things to know about combined science GCSEs

- 1. Students taking separate science GCSEs get a grade from 9 to 1 for each subject, with 9 being the highest grade.
- 2. Students studying combined science receive an award worth two GCSEs, consisting of two equal or adjacent grades from 9 to 1 (9-9, 9-8, 8-8, 8-7, 7-7...to 1-1).
- 3. If the numbers are different, the highest number will always be reported on the left.
- 4. Students do at least 8 practical activities (16 for combined science) covering specific apparatus and techniques.
- 5. Exam questions about practical work make up at least 15% of the total marks for the qualification.
