

[News story: PE and Sports Premium doubles to £320 million](#)

The department is doubling the funding that primary schools receive to improve the quality of their PE and sport provision from £160 million to £320 million a year, and today (Tuesday 24 October) we have published details of the [individual allocations](#) at school level. We have also published our [funding guidance](#) for this scheme alongside case studies showing how some schools have delivered a real impact for pupils through sports and physical activity.

The PE and Sport Premium is part of a series of programmes led by the department to improve healthy lifestyles among pupils and tackle childhood obesity. As part of the [Childhood Obesity Plan](#), we are working with other departments and agencies – including the Department of Health and the Department for Digital, Culture, Media and Sport – to make sure children are healthy and active.

Minister for Children and Families Robert Goodwill said:

We want to make sure all children have a healthy and active lifestyle and it's vital that we encourage this in our classrooms. That's why we have doubled the Primary PE and Sport Premium to £320 million per year to improve the quality of PE and sport in our schools. I'm also pleased that more pupils will benefit from our new £100 million Healthy Pupil Capital Fund, which will help improve facilities, such as sports halls and playgrounds.

Public Health Minister Steve Brine said:

Investing in school facilities such as sports halls, playgrounds, kitchens and dining facilities will undoubtedly make a significant difference to children's health across the country. The school environment is critical in shaping a healthy lifestyle, which is why we are using the money from the soft drinks industry levy to double the PE and sport premium. This is another positive outcome from our world leading Childhood Obesity Plan.

Healthy eating, physical activity and sport not only help tackle childhood obesity, but can also have a positive impact on pupils' behaviour, attendance, concentration and attainment, helping children to reach their potential.

The government is delivering a series of actions to improve children's health. Alongside the doubled PE and Sport Premium, we are investing £100 million through the [Healthy Pupils Capital Fund](#) to facilitate improvements to

children's physical and mental health by increasing and improving access to and use of relevant facilities, such as kitchens, dining facilities, changing rooms and sports facilities.

As part of our wider programme of work, we are also investing a further £26 million in breakfast clubs. This money will encourage innovation and kick-start or improve breakfast clubs in at least 1,500 schools, with a focus on increasing provision for disadvantaged pupils in [Opportunity Areas](#).
