

News story: Safer IT safer ship: cyber security code of practice for ships

The cyber security code of practice for ships was launched by [Lord Callanan at Inmarsat](#) yesterday as part of London International Shipping Week.

The MAIB assisted with the development of this guidance, which provides actionable advice on:

- developing a cyber security assessment and plan to manage risk
- handling security breaches and incidents
- highlighting national and international standards used
- the relationship to existing regulation

The code is to be used with organisation's:

- risk management systems
- subsequent business planning

[The code of practice can be downloaded from GOV.UK.](#)
