

# Ninth cross-strait forum opens in Xiamen

The ninth Strait Forum started Saturday in east China's Fujian Province to boost grassroots exchange between the Chinese mainland and Taiwan.

During the week-long forum, 21 activities on youth exchange, grassroots communities and trade will be held, as well as 15 parallel activities across the province.

Topics of common concern for people across the Taiwan Strait, including cultural inheritance, employment, entrepreneurship, tourism, health care and vocational education will be covered in the discussions, according to the forum calendar.

The forum will also feature a group wedding for 50 cross-strait couples and a traditional martial arts competition.

This year marks the 30th anniversary since the two sides started people-to-people communication across the Strait.
