

Official Statistics: Funding for flood and coastal erosion risk management in England

Updated: 2018 update published

This document sets out Central Government funding for Flood and Coastal Erosion Risk Management (FCERM) in England, since financial year 2005/06.

The document sets out the budget allocations, as well as historical expenditure on Flood and Coastal Erosion Risk Management. It also sets out other sources of funding used for FCERM.

Following consultation with the UK Statistics Authority, this document has been updated to become an Official Statistic. This document is not a National Statistic. These statistics have been produced to the high professional standards set out in the Code of Practice for Official Statistics, which sets out eight principles including meeting user needs, impartiality and objectivity, integrity, sound methods and assured quality, frankness and accessibility.
