

Consultation outcome: Energy Company Obligation: EC03, 2018 to 2022

Updated: Final stage impact assessment added.

We're seeking views on the future design of the Energy Company Obligation (ECO) scheme. This includes:

- the scheme moving to a 100% Affordable Warmth scheme for fuel poor, low income and vulnerable households
- the energy efficiency and heating measures that can be delivered under the scheme
- the proportion of the scheme that can be delivered under Local Authority Flexible Eligibility
- how ECO can support innovation

Energy suppliers, energy efficiency manufacturers, installers and trade bodies, groups interested in fuel poverty issues and local authorities may have an interest in this consultation. Members of the public with an interest in energy efficiency and fuel poverty issues may also wish to respond.
