

Consultation outcome: Environment Agency enforcement and sanctions policy

Updated: Added consultation response document.

We have combined the [enforcement and sanctions statement and the enforcement and sanctions guidance](#) into one document: The enforcement and sanctions policy. We have updated our approach to include new government policies we need to take account of.

The consultation document sets out:

- where we propose to amend our current approach
- what we propose should remain unchanged

We will use your feedback to further develop and finalise our enforcement and sanctions policy.

We will produce a consultation response document by 6 April 2018.

Shortly after this we will publish our enforcement and sanctions policy.
