

Consultation outcome: Proposed Control of Mercury (Enforcement) Regulations 2017

Updated: Summary of responses and government response added.

We want to know what you think about how we plan to enforce controls on mercury in the UK. The controls will apply the requirements of [EU Regulation 2017/852 on mercury](#).

We are interested in the views of those in industries that use mercury or deal with mercury waste, as well as those involved in dentistry. In particular, we would like to hear whether you view the approach proposed as being appropriate and proportionate.

This is a joint consultation led in England by Defra, the Department for Business, Energy and Industrial Strategy (BEIS), with input from the Department of Health. In the Devolved Administrations it has been led by the Scottish Government, the Welsh Government, the Department of Agriculture, Environment and Rural Affairs (Northern Ireland) and the Department of Health (Northern Ireland).
