

Policy paper: 25 Year Environment Plan

Updated: Annex 3 updated to correct an error in the introduction (missing word).

Our environment plan sets out our goals for improving the environment, within a generation, and leaving it in a better state than we found it. It details how we in government will work with communities and businesses to do this. It sets out what we will be doing over the next 25 years.

The Plan sits alongside two other important government strategies: our [Industrial Strategy](#) and our [Clean Growth strategy](#).

Alongside the plan, we've also published 3 detailed, technical annexes.
