

[Press release: Applications for permits received at Holmwood oilfield](#)

The Environment Agency has received 3 applications for environmental permits at the Holmwood oil and gas site, off Coldharbour Lane, Surrey.

These applications are for 1 bespoke Environmental Permit and 2 Standard Rules Permits. They have been submitted by the site Europa Oil and Gas Limited to begin exploration drilling for oil or gas at the site.

In deciding whether or not to issue the permits, the Environment Agency will take into account all relevant considerations and legal requirements.

You can view and comment on the [application](#).

An Environment Agency spokesperson said:

An environmental permit sets out stringent conditions that a site must adhere to. We will not issue an environmental permit for a site if we consider that activities taking place will cause significant pollution to the environment or harm to human health.

We are in the process of determining the applications to permit this site and we want to hear from the public and understand peoples' views. Everybody has the chance to see what the bespoke permit may look like and to raise any additional concerns before we make any final decision.
