

## [Press release: Come along to flood scheme update at Forge Mill Farm](#)

If you are planning a visit to Sandwell Valley Park, Forge Mill Farm or RSPB on Thursday 9 August, why not come and talk to Environment Agency staff about the Perry Barr and Witton Flood Risk Management Scheme?

Environment Agency staff will be setting up a stall near the Forge Mill Farm car park on 9 August, from 1pm to 4pm, to talk to local residents and visitors about the progress being made.

The completed scheme will reduce flood risk for 1,400 properties in the area. Phase 2 of the scheme, will provide additional flood storage at Forge Mill in Sandwell Valley, which is upstream of Perry Barr and Witton, and will control the flow of flood water downstream. Park users will have seen construction happening around Forge Mill Farm, at the golf course and along the river side.

Rachel Kelly, Environment Agency Project Manager for the Scheme said:

This is a great opportunity to find out more about what we've been doing so far and we have planned for the coming months. Come and hear more about the scheme, including an additional river crossing providing a circular walking route and environmental enhancements, such as the creation of wet woodland, crassula management (in conjunction with RSPB), tree planting, tree and hedgerow management and creation of new habitats in areas where we are taking material to build the embankment.

The main aspects of this phase include the building of a new embankment, installation of the river outlet and temporarily re-diverting the river.

The scheme, costing just over £32 million, is part of the Environment Agency's programme of £2.6 billion investment into flood defences across the country. The scheme was made possible through funding contributions from Birmingham City Council, Regional Flood and Coastal Committee, Arts Council and crowd-funding.

The first phase of the scheme was completed in spring 2017. Following improvements to the existing upstream flood storage area at Perry Hall Playing Fields, Phase 1 delivered improvement works in Perry Barr and Witton, including wall repairs and wall raising along Brookvale Road, construction of walls along Tame Road and installation of a flood gate at the Atlas Industrial Estate entrance. These measures in isolation do not provide a big enough reduction in flood risk, although they did successfully prevent properties from flooding in May 2018, so Phase 2 will provide the necessary flood water storage during a major flood, such as that experienced in 2007.

Along with flood defences and flood management schemes, knowing your flood risk is also important when protecting your family and property from flooding. People can check their risk and register to receive free flood warnings by visiting our page on [preparing for flooding](#) or calling Floodline on 0345 988 1188.
