

[Press release: Environment Agency warns of flood risk in Devon and Cornwall](#)

The Environment Agency is urging people to remain vigilant to potential flooding as a low pressure coastal storm is forecast to hit the south coasts of Cornwall and Devon on Saturday.

Current forecasts show a low pressure storm on Saturday 21 October which, combined with close-to-spring tides, means flood warnings are likely to be issued along the south coasts of Cornwall and Devon and will require the routine closure of flood gates.

On Thursday 19 October the Environment Agency will be deploying temporary flood barriers in Fowey. The temporary barriers are designed to give Fowey better protection from potential coastal flooding. This type of flood defence has been used to prevent flooding from rivers for a number of years but this is the first time they have been used on the Cornish coast.

Environment Agency teams have been mobilised across the area to check on flood defences, clear any river blockages and closely monitor river levels. These teams have been working around the clock to reduce the risk of flooding, and will be out in force over the weekend.

Kevin Ward of the Environment Agency said:

We urge residents to take care on the coast this weekend. Strong winds pose a risk of waves overtopping defences and we advise not to stop and admire the waves or take 'storm selfies'.

Also, avoid exposed coastal areas and do not walk or drive through flood water, which can be dirty and contain hidden debris. Just 30cm of flowing water can move a car and driving through water can also create waves.

The Environment Agency continue to monitor the situation across Devon and Cornwall and will review their plans as the forecasts are updated.

Residents and businesses are encouraged to sign up to [flood warnings on the Environment Agency website](#). People can also call Floodline on 0345 988 1188. Once registered, if a flood warning is issued, they will receive an automatic message by telephone, SMS text message, email and/or fax.
