

Press release: FCO statement on UN action against breaching sanctions on North Korea

An FCO spokesperson said:

The UK welcomes the announcement by the UN's 1718 Committee that it has listed three vessels for engaging in sanctions evasion. The vessels, the Shang Yuan Bao, New Regent and Kum Un San 3, are subject to deflagging and a port entry ban. Their activity demonstrates that North Korea continues to flout UN sanctions through prohibited ship-to-ship transfers.

The UK is contributing to the enforcement of UN sanctions through monitoring and surveillance activities to detect and prevent illicit ship-to-ship transfers in partnership with Australia, Canada, France, Japan, New Zealand and the United States.

We are also concerned that recent US assessments indicate that North Korea has breached the UN-mandated cap on imports of refined petroleum through illicit transfers and we therefore call on all Member States to halt all sales and transfers of refined petroleum to North Korea.

Full enforcement of UN sanctions is vital to ensure we achieve the goal of complete, verifiable and irreversible denuclearisation of North Korea as agreed by the UN Security Council.
