

[Press release: Helping pupils prepare for flooding](#)

Around 800 school children are better prepared for flooding following vital Environment Agency information sessions.

Community Engagement Officer for Cleveland, Sarah Pearce, led assemblies at schools across the area last week to help pupils understand flood risk and know what to do in a flood.

The schools involved were Handale Primary School at Loftus, Rift House Primary School in Hartlepool and Oxbridge lane Primary School in Stockton-on-Tees.

She was joined at Rift House by Coun. Marjorie James, Hartlepool Council's representative on the Northumbria Regional Flood and Coastal Committee.

Sarah also launched a competition for school pupils to design a new logo which will be worn by Community Flood Wardens throughout the North East.

Awareness raising

Sarah said:

It's hoped that through these sessions with children I will raise awareness of flooding and issues associated with flooding and will be able to pass on key safety messages to young people.

Working with schools means children can be educated about what it means to be flood resilient and ensure the messages delivered have a long-term impact in flood risk areas.

It's absolutely vital that future generations understand flooding, what we do during a flood and what they can do to stay safe.

The Flood Warden Logo competition is being run right across the North East with schools taking part from the whole area. Once the winning design has been selected this will be printed on to the new Flood Warden jacket which will be presented to all flood wardens to wear during a flood incident.

Helping communities be resilient

Sarah is one of four Community Engagement Officers for the North East appointed by the Environment Agency to help communities to be more flood resilient.

Funded by the Northumbria Regional Flood and Coastal Committee (NRFCC) for the next four years, the officers are working alongside partner organisations

to help support communities.

Sarah works closely with Cleveland Emergency Planning Unit, and her work includes helping businesses and residents to understand their risk of flooding and ensuring those in flood risk areas are signed up to receive free flood warnings.

She's also helping communities prepare themselves for flooding, such as supporting them to develop community flood plans and recruit volunteer Flood Wardens in at risk communities.
