### Notes to editors

1. Transaction Data is published on the 15th working day of each month. The November Transaction Data will be published at 11am on Thursday 21 December 2017 at [HM Land Registry Monthly Property Transaction Data](#).
2. The monthly Transaction Data showing how many applications for new titles, leases, splitting titles, updating existing titles, official copies of the register and searches were completed, reflects the volume of applications lodged by customers using an HM Land Registry account number on their application form.
3. Completed applications in England and Wales shown by region and by local authority include postal applications as well as those sent electronically.
4. Transaction Data excludes pending applications, withdrawn applications, bankruptcy applications, bulk applications and discharge applications.

5. Transactions for value are applications lodged involving a transfer of ownership for value. Discharge applications remove a charge, for example a mortgage, from the register. For an explanation of other terms used, see [abbreviations used in the transaction data](#).
6. Most searches carried out by a solicitor or conveyancer are to protect the purchase and/or mortgage. For example, a search will give the buyer priority for an application to HM Land Registry to register the purchase of the property. This can give an indication of market activity.
7. Reasonable skill and care is used in the provision of the data. We strive to ensure that the data is as accurate as possible but cannot guarantee that it is free from error. We cannot guarantee our data is fit for your intended purpose or use.
