

Press release: Waste vehicle seized from gang

A vehicle belonging to an organised gang operating in South East England has been seized by the Environment Agency and Thames Valley Police, as part of an ongoing waste crime investigation. The vehicle is believed to be linked to the operation of an illegal waste site in the Maidenhead area.

The seizure, which took place last week, comes as the Environment Agency and the police move forward in their investigation to capture those responsible for occupying land unlawfully and accepting tonnes of waste, often from unsuspecting sources, leaving behind the rubbish to be cleared at the expense of the landowner or taxpayer.

Illegal waste crime drains the UK economy of £1 billion each year in clean-up costs and lost tax revenues. It has a devastating effect on the environment and local communities with pest infestations and fires, which could lead to water and land contamination plus air pollution from smoke.

Nick Daykin, Environment Agency Enforcement Team Leader, said:

This is a great result in an ongoing investigation with Thames Valley Police to apprehend a group of unscrupulous individuals. The power to seize vehicles is a relatively new and is now an important weapon in our armoury for disrupting this type of criminal activity. This is a big message to the criminal fraternity: you set up site yesterday, we will have one of your vehicles off the road today and we will do it again tomorrow!

Using illegal waste dealers may seem tempting in terms of cost, but it can help fund organised crime. Everyone has a responsibility for their own waste and if your waste is found at an illegal site you could be facing fines of up to £5,000. To avoid this, we encourage members of the public and local businesses to ask their waste carrier for proof of their Waste Carrier's Registration and to ask to see a 'waste transfer note' and if possible take a photo of it on their phone.
