Washington, DC
October 29, 2018

The Department of State announces the selection of Miller Hull Partnership of Seattle, Washington as the design architect for the new U.S. Consulate General project in Merida, Mexico.

The multi-building complex will be situated on an approximately seven acre site in the Via Montejo development and will provide a safe, secure, and modern facility platform for the Consulate community and those it serves.

Since 1999, as part of the Department's Capital Security Construction Program, the Bureau of Overseas Buildings Operations (OBO) has completed 149 new diplomatic facilities, with an additional 53 projects now in design or under construction.

OBO's mission is to provide safe, secure, and functional facilities that represent the U.S. government to the host nation and support staff in the achievement of U.S. foreign policy objectives. These facilities represent American values and the best in American architecture, engineering, technology, sustainability, art, culture, construction execution, and resiliency.
