

Press Releases: The Bureau of Overseas Buildings Operations Announces the Shortlist for Special Architecture/Engineering Services IDIQ

Media Note
Office of the Spokesperson

Washington, DC
April 6, 2018

The Department of State's Bureau of Overseas Buildings Operations (OBO) has shortlisted ten design firms for the Indefinite Delivery/Indefinite Quantity (IDIQ) solicitation for Architecture/Engineering (A/E) services for special new construction and modernization projects at U.S. diplomatic facilities worldwide. The shortlisted firms are:

AECOM
Beyer Blinder Belle
Ennead Architects
EYP
HOK
KCCT
The Miller Hull Partnership
Moore Ruble Yudell
Morphosis Architects
Richard+Bauer Architecture

OBO received 19 qualified submissions for this IDIQ solicitation and only A/E firms possessing a final Secret Facility Clearance were eligible to respond. The shortlisted firms demonstrated an appropriate range of portfolio complexity, provided notable design solutions that responded to the solicitation, expertly managed client expectations and relations, and asserted a high level of industry recognition.

The shortlisted firms will present their capabilities in an interview with OBO. Scores from the initial qualifications submissions will be combined with the interview phase and firms with the highest combined scores will be recommended for contract award.

OBO's mission is to provide safe, secure, and functional facilities that

represent the U.S. government to host nations and support our staff in the achievement of U.S. foreign policy objectives. These facilities represent American values and the best in American architecture, engineering, technology, sustainability, art, culture, and construction execution.
