

# Protect your pipes – be prepared in winter

Protect your pipes  
– be **prepared** in winter.  
**Heat, insulate and  
protect** your home.

From Scottish Water :

As we come into the colder weather, Scottish Water is advising customers in communities across Scotland to prepare their homes for winter.

Our winter advice encourages anyone with a home, holiday home or business premises to take action to heat, insulate and protect their properties.

Visit [www.scottishwater.co.uk/winter](http://www.scottishwater.co.uk/winter) where you can find winter information and customers can also find further information online about their pipework responsibilities by visiting [www.scottishwater.co.uk/responsibility](http://www.scottishwater.co.uk/responsibility).
