

Quarterly business receipts indices for service industries for first quarter of 2018

Business receipts in value terms of all major service industries showed increases of different magnitudes in the first quarter of 2018 when compared with the first quarter of 2017, according to the provisional figures of business receipts indices released today (June 11) by the Census and Statistics Department (C&SD).

Comparing the first quarter of 2018 with the first quarter of 2017, double-digit increases were recorded in business receipts of the financing (except banking) (+28.7%), warehousing and storage (+17.6%), retail (+14.4%), courier (+13.7%), banking (+11.1%), transportation (+10.8%), accommodation services (+10.6%) and food services (+10.0%) industries.

Analysed by service domain, business receipts of the tourism, convention and exhibition services domain increased by 12.3% year-on-year during the same period, while those of the computer and information technology services domain also increased by 4.0% year-on-year.

On a seasonally adjusted quarter-to-quarter comparison, business receipts in value terms of most major service industries recorded increases of different magnitudes in the first quarter of 2018 as well when compared with the fourth quarter of 2017. In particular, business receipts of the financing (except banking) industry increased by 12.8% quarter-to-quarter.

Comparing the first quarter of 2018 with the fourth quarter of 2017 and on a seasonally adjusted basis, business receipts of the tourism, convention and exhibition services domain increased by 7.4%, whereas those of the computer and information technology services domain decreased by 2.4%.

Table 1 presents the business receipts indices and their corresponding year-on-year rates of change in respect of selected service industries and service domains for the recent five quarters, while Table 2 shows the corresponding quarter-to-quarter rates of change in the business receipts indices based on the seasonally adjusted series.

The revised figures of business receipts indices for the first quarter of 2018 will be released at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?subjectID=7&tableID=093&ID=0&productType=8) and relevant publications of the C&SD starting from July 20, 2018.

Data for compiling the business receipts indices are mainly based on the Quarterly Survey of Service Industries conducted by the C&SD, supplemented by relevant data provided by the Hong Kong Monetary Authority and the Hong Kong Tourism Board.

A service domain differs from a service industry in that it comprises those economic activities which straddle different industries but are somehow related to a common theme. It may include all activities carried out by all establishments in a service industry that is closely related to the domain. For a service industry that is less closely related, however, only a portion of the establishments in the industry or even only part of the economic activities of the establishments is related to the domain. Taking the tourism, convention and exhibition services domain as an example, it includes all services of hotels and travel agents, and some (those involving visitors as customers) but not all of the services of restaurants, retailers and transport operators.

The classification of service industries follows the Hong Kong Standard Industrial Classification Version 2.0, which is used in various economic surveys for classifying economic units into different industry classes.

More detailed statistics are given in the report "Quarterly Business Receipts Indices for Service Industries, First Quarter 2018". Users can download this publication free of charge at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?productCode=B1080006).
