

Quarterly business receipts indices for service industries for second quarter of 2019

Business receipts in value terms of more than half of the major service industries showed increases of different magnitudes in the second quarter of 2019 when compared with the second quarter of 2018, according to the provisional figures of business receipts indices released today (September 9) by the Census and Statistics Department (C&SD).

Comparing the second quarter of 2019 with the second quarter of 2018, double-digit increases were recorded in business receipts of the real estate industry (+23.6%) and the insurance industry (+19.8%).

On the other hand, the import/export trade industry recorded a decrease of 6.0% in business receipts during the same period, followed by the wholesale industry (-5.2%).

Analysed by service domain, business receipts of the tourism, convention and exhibition services domain increased by 1.1% year-on-year during the same period, whereas those of the computer and information technology services domain decreased by 7.0% year-on-year.

On a seasonally adjusted quarter-to-quarter comparison, business receipts in value terms of many major service industries recorded decreases of different magnitudes in the second quarter of 2019 when compared with the first quarter of 2019. In particular, business receipts of the accommodation services industry and the food services industry decreased by 5.3% and 4.6% respectively. On the other hand, the real estate industry registered an increase of 4.6% in business receipts during the same period.

Comparing the second quarter of 2019 with the first quarter of 2019 and on a seasonally adjusted basis, business receipts of the tourism, convention and exhibition services domain decreased by 3.3%, while those of the computer and information technology services domain also decreased by 4.6%.

Table 1 presents the business receipts indices and their corresponding year-on-year rates of change in respect of selected service industries and service domains for the recent five quarters, while Table 2 shows the corresponding quarter-to-quarter rates of change in the business receipts indices for the recent five quarters based on the seasonally adjusted series.

The revised figures of business receipts indices for the second quarter of 2019 will be released at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?subjectID=7&tableID=093&ID=0&productType=8) and relevant publications of the C&SD starting from October 18, 2019.

Data for compiling the business receipts indices are mainly based on the Quarterly Survey of Service Industries conducted by the C&SD, supplemented by relevant data provided by the Hong Kong Monetary Authority and the Hong Kong Tourism Board.

A service domain differs from a service industry in that it comprises those economic activities which straddle different industries but are somehow related to a common theme. It may include all activities carried out by all establishments in a service industry that is closely related to the domain. For a service industry that is less closely related, however, only a portion of the establishments in the industry or even only part of the economic activities of the establishments is related to the domain. Taking the tourism, convention and exhibition services domain as an example, it includes all services of hotels and travel agents, and some (those involving visitors as customers) but not all of the services of restaurants, retailers and transport operators.

The classification of service industries follows the Hong Kong Standard Industrial Classification Version 2.0, which is used in various economic surveys for classifying economic units into different industry classes.

More detailed statistics are given in the report "Quarterly Business Receipts Indices for Service Industries, Second Quarter 2019". Users can download this publication free of charge at the website of the C&SD (www.censtatd.gov.hk/hkstat/sub/sp70.jsp?productCode=B1080006).
