

[Rebecca Long-Bailey responds to reports Toyota is to invest £240m in a UK plant at Burnaston](#)

Rebecca Long-Bailey

MP, Labour's Shadow Business Secretary,

commenting on reports that Toyota is to invest in a UK plant at Burnaston, said:

“The decision by Toyota to invest £240 million to upgrade its Burnaston plant is very welcome news. It is testament to the world-class workforce there whose excellence, hard work, and efficiency makes the UK car industry so strong.

“However, we should not be complacent. As the chief executive of Toyota Motor Europe warned; continued, predictable and uncomplicated tariff and impediment-free access will be important for future success. This is why the Government needs to secure tariff and impediment free access to the Single Market and Customs Union and re-enforce this with a coherent industrial strategy, which invests in the supply chain, R&D, infrastructure and skills. Only by doing this will the Government protect jobs in the UK car industry and ensure the continued success of this sector.”
