

Reitox Development Framework

For more than 20 years, the European information network on drugs and drug addiction (Reitox), has been the cornerstone of the European drug monitoring and reporting system, to which it contributes by collecting, analysing, interpreting and disseminating data at national level, as well as by defining the tools for monitoring. The EMCDDA 2025 strategy, endorsed in 2016, aims at contributing to a healthier and more secure Europe. In this context, Reitox is currently defining the new strategic goals for the network as a whole and how these will be operationalised and achieved.
