

Remote payment functions in HKeMeter mobile application temporarily out of service

A spokesman for the Transport Department announced today (July 21) that due to a backend system problem, the remote payment functions in the HKeMeter mobile application are temporarily out of service until further notice. Motorists should conduct payment of parking fees directly on the parking meters. The department apologises for any inconvenience caused. For enquiries, please contact the service hotline at 2332 3700.
