

Research and analysis: Innovative and novel approaches to wildlife enforcement

Requirement R63

Requirement detail

Active enforcement of wildlife licensing through traditional enforcement methods requires significant resource. Exploration of innovative approaches to enact wildlife legislation, for example education or outcome focused compliance, would benefit the efficiency of marine management work. Such innovative approaches may also have application within other MMO functions where regulatory enforcement is required, including licensing and fisheries.

It is important that any novel approaches proposed are practical and cost-effective to implement. Therefore, approaches should also consider appropriate feasibility testing or parallel work in other enforcement fields and any implementation considerations.
