

Results of C919 Aircraft Flight Demonstration in Hong Kong Photo Competition announced (with photos)

The C919 Aircraft Flight Demonstration in Hong Kong Photo Competition, jointly organised by the Transport and Logistics Bureau (TLB) and the Airport Authority Hong Kong (AAHK), has been successfully concluded. The AAHK announced today (January 26) the results of the competition.

A spokesman for the TLB said, "The competition received enthusiastic responses and attracted over 800 entries. The entries fully showcased the style and different views of the home-developed civil aircraft C919 flying over Hong Kong."

In view of the C919 aircraft visit to Hong Kong in December last year, the competition aimed at encouraging the general public to experience first-hand the flight demonstration by the C919 aircraft at the harbourfront of Victoria Harbour, witness the country's important milestone in the aviation manufacturing industry and capture the best moments of the C919 aircraft soaring over Hong Kong for the first time with photos.

There are champion, first runner-up, second runner-up honours and 50 merit awards in the competition. Each awardee will receive from the AAHK two round-trip air tickets departing from Hong Kong to designated destinations. The list of winners and their winning photos are available on the AAHK's website: www.hongkongairport.com/en/C919photos.page.

The TLB once again thanked the Civil Aviation Administration of China and the Commercial Aircraft Corporation of China, Ltd for their full support in arranging the visit of the home-developed C919 and ARJ21 aircraft to Hong Kong. The Government of the Hong Kong Special Administrative Region will continue to seize national development opportunities and consolidate and enhance Hong Kong's status as an international aviation hub.
