

Russia-Morocco talks

News conference by Dmitry Medvedev and Saad Eddine El Otmani

Joint news conference by Dmitry Medvedev and Saad Eddine El Otmani

Excerpts from the transcript:

Saad Eddine El Otmani (*via interpreter*): This visit by Prime Minister of the Russian Federation Dmitry Medvedev has special significance, as it is the first official visit of a prime minister of the Russian Federation to Morocco. So, welcome once again. This is your first time in Morocco, so this visit is important from a personal perspective as well.

This visit is regarded as an historic moment in relations between our countries. It will help strengthen the deep strategic partnership, the agreement on which was signed during the historic visit by King of Morocco Mohammed VI to Moscow in March 2016. This partnership relies on strong foundations for cooperation, which are strong and renewable, and whose horizons expand in various sectors. At some point, this partnership translated into signing 16 agreements in the presence of the King of Morocco, and created new opportunities for dynamic and extensive cooperation between the two countries.
