

SFST visits Tai Po District

The Secretary for Financial Services and the Treasury, Mr James Lau, visited Tai Po District this morning (June 12). He went to a secondary school and met with members of a merchants association and the Tai Po District Council to exchange views on various issues.

Mr Lau first visited Ling Liang Church M H Lau Secondary School, where he toured the facilities of a creative robotics project that promotes STEM (science, technology, engineering and mathematics) education by instilling creativity and logical thinking among students. He watched demonstrations on students making use of computer programming to control robots designed by themselves, and got to know how they felt about taking part in the project.

Mr Lau said he was glad to see students making every effort to perfect their designs and he encouraged them to stay passionate in their pursuits.

Mr Lau then proceeded to the Tai Po Merchants Association Limited and chatted with representatives on the business environment and topics of concern.

Before concluding the visit, Mr Lau met with members of the Tai Po District Council to exchange views on various issues including housing supply, demand-side management measures on the property market and the life annuity scheme.
