

## Short term tenancy information available on GeoInfo Map

The Lands Department announced today (December 27) that information on government sites granted by short term tenancy (STT) since January 1, 2018 is now available on the [GeoInfo Map](#).

The GeoInfo Map now contains information on STTs granted by either open tender or direct grant or STTs with rent reviewed since January 1, 2018 (updated till end of October 2018). Information on STTs granted or with rent reviewed thereafter will also be uploaded onto the GeoInfo Map regularly initially on a quarterly basis.

The STT information available on GeoInfo Map includes site area, commencement date, tenancy term, use and rent. The particulars of tenants will be added in future pending introduction of a revised consent clause for information disclosure in tenancy agreements. The information provided is for general reference only.
