

Some FEHD markets to close earlier for deep cleaning and disinfection

The Food and Environmental Hygiene Department (FEHD) today (February 23) announced that in view of a case testing preliminarily positive for COVID-19 found to be related to each market, for prudence's sake, Sheung Wan Market and Ap Lei Chau Market of the FEHD will be closed earlier today at 7pm. Deep cleaning and disinfection will be conducted during the closure period so as to safeguard the health and safety of market stall tenants and the public. If all goes well, the FEHD will reopen the markets tomorrow (February 24) after the completion of the deep cleaning and disinfection work.

A spokesman for the FEHD said, "The FEHD has cleaned and disinfected the areas where the persons concerned worked. During the deep cleaning and disinfection period, FEHD staff will also thoroughly clean and disinfect communal areas and facilities in the markets, and call for the co-operation of market tenants to conduct cleaning and disinfection at their respective stalls. In addition, the FEHD will arrange street cleaning and disinfection in the vicinity of the markets."

The FEHD attaches importance to the hygiene conditions of public markets, cooked food markets (CFMs) and cooked food centres (CFCs), and has adopted the following measures in view of the epidemic situation:

- * Stepped up regular cleaning and disinfection of communal areas and facilities in the markets, CFMs and CFCs, including toilets, escalators, elevators and stair handrails, with diluted household bleach regularly every day. Management service contractors also conduct thorough cleaning in all markets, CFMs and CFCs after the venues are closed every day. Also, the FEHD strongly appeals to the public to use the disinfectant hand sanitisers that are always provided in the markets, CFMs and CFCs;

- * With the assistance offered by the Electrical and Mechanical Services Department, a check on air change in the FEHD's markets, CFMs and CFCs has been completed in 2021 and installation of air purifiers has been carried out according to needs, and the FEHD is now following up with the installation of ultraviolet-C sterilisers at escalator handrails and arranging a special round of cleaning and disinfection of air-conditioning and exhaust systems at the FEHD's markets, CFMs and CFCs; and

- * Apart from free testing on a regular basis that has been routinely made available to tenants of markets, CFMs and CFCs and licensed hawkers and registered assistants, etc, rapid antigen test kits have been delivered to them and stationed staff of management service contractors on a one-off basis for testing in case of need.

"The FEHD will continue to closely monitor the situation of each market, CFM and CFC, and will take necessary follow-up action accordingly," the spokesman said.
