

Statutory guidance: SR2015 No 3: metal recycling and WEEE authorised treatment facility excluding ozone depleting substances

Updated: Added to 'details' section: You can apply online for most standard rules environmental permits.

These standard rules allow you to operate a metal recycling and waste electrical and electronic equipment (WEEE) authorised treatment facility at a specified location.

The total quantity of waste that can be accepted at a site under these rules must be less than 75,000 tonnes a year. The rules will not permit the treatment of WEEE containing ozone-depleting substances but it can be accepted for storage only.

You can apply online for most standard rules environmental permits.
