

Students reminded to attend school early on first school day

The Transport Department (TD) today (August 29) reminded students to attend school early on the first school day next Monday (September 3) as traffic is expected to be busier than normal.

"Students, especially those attending a new school, should familiarise themselves with the public transport routes to be taken to school and allow more travelling time on the first school day. Students living on the outlying islands or attending schools on the outlying islands should check the ferry schedules, the vessel types to be used and journey times for their intended ferry trips beforehand. Students are also reminded to pay attention to road safety when attending school," a department spokesman said.

Major public transport operators have been reminded to provide adequate public transport services to meet the transport demand on the first school day.

"The TD's Emergency Transport Co-ordination Centre (ETCC) will closely monitor the traffic situation and public transport services on September 3. The department will maintain close liaison with major public transport operators and relevant government departments. Staff will be deployed at various major locations throughout the territory to observe the traffic conditions and provide on-site information to the ETCC for arranging public transport service enhancement or informing the Police for traffic regulation when necessary," the spokesman added.

More information may be obtained through the following hotlines and websites of major public transport operators:
