

Sue Hayman MP comment on the recovery of cod stocks in the Irish Sea

“We welcome new advice from ICES on the condition of cod stocks in the Irish Sea and the news that they have returned to above the maximum sustainable yield trigger.

“With the news that North Sea cod has received Marine Stewardship Council accreditation, fishermen are to be credited for working hard with reduced catching levels over the past fifteen years to help UK fish stocks to recover.

“Going forward, the UK must work collaboratively with the fishing industry and our European neighbours to deliver the best outcomes for our fish stocks, the wider marine environment and the industry, creating the minimum of disruption to our fishermen.”
