

Supply chain engagement webinar launches new health physics services contract

News story

The dynamic purchasing system contract, worth up to £107m, will be the focus of a webinar for suppliers.

The webinar is being held between 4.00 – 5.00pm on Tuesday 2 November 2021.

Companies are encouraged to register for the event as soon as possible to hear about the opportunities to provide health physics services across the UK for the [Nuclear Decommissioning Authority](#) group subsidiaries [Dounreay Ltd](#), [LLW Repository Ltd](#), [Magnox Ltd](#), [Sellafield Ltd](#) and UK government owned [National Nuclear Laboratories](#).

Linda Sapsford, Magnox Head of Procurement and Supply Chain, said:

Magnox is keen to share news of this dynamic purchasing system with health physics service contractors, large and small, to forge new relationships whilst strengthening existing ones and to seek their input to help the development of our innovative approach to the delivery of these services.

Suppliers should deliver value for the UK taxpayer while also maintaining the highest standards of safety and social value including the pipeline of health physics professionals.

Companies are invited to register for the event, scheduled for 2 November 2021, by emailing magnox.communications@magnoxsites.com.
