

UK Geoenergy Observatories

The British Geological Survey (BGS) is delivering a £31m investment in two subsurface (underground) research field sites to deliver new geological evidence that will advance our understanding of the subsurface environment and underpin the development of new energy science.

DigBath250 data withdrawn

The DigBath250 data has now been withdrawn. Please contact Digital Data for more information.

Geoscience for Sustainable Futures

BGS launch their new Official Development Assistance (ODA) programme.

Sir Keith O’Nions named as first Chair of the new British Geological Survey Board

Today, Sir Keith O’Nions has been announced as the first Chair to lead the new British Geological Survey (BGS) Board. The BGS Board has been created to assist the BGS meet future challenges and ensure it continues as a globally leading survey, delivering services and providing infrastructure support nationally and globally.

Scheduled server reboot

The server that holds our large files used for our borehole core photos, the publications viewer, etc will be rebooted after 18:00 on 20 September. Disruption should be minimal. Sorry for any inconvenience.
