## Labour Department highly concerned about fatal work accident that happened today

The Labour Department (LD) is highly concerned about the work accident that happened at a construction site in Tsim Sha Tsui this morning (July 19), in which a male worker carrying out work on a scaffold inside a lift shaft died after falling from height. The LD is saddened by the death of the worker in the accident and expresses its deepest sympathy to the victim's family.

The LD's spokesman said, "We commenced immediate on-site investigation as soon as we were notified of the accident and will issue suspension notices to the contractors involved to suspend any work inside lift shafts of the site. The contractors cannot resume the work until the LD is satisfied that measures to abate the relevant risk have been taken."

The spokesman added, "We will complete investigation as soon as possible to identify the cause of the accident, ascertain the liability of the duty holders and recommend improvement measures. We will take actions pursuant to the law if there is any violation of the work safety legislation."

The general duty provisions of the Factories and Industrial Undertakings Ordinance require employers to provide safe working environments, safe plant and safe systems of work for their employees. Those who contravene the above provisions are liable to a maximum fine of \$500,000 and imprisonment for six

months.

In regard to today's accident, the LD will issue a Work Safety Alert through its website and email, giving a brief account of the accident concerned to duty holders, workers' unions, professional bodies of safety practitioners and others, and reminding the industry of the importance of following safety precautionary measures to prevent recurrence of similar accidents.

The LD will also remind the employer concerned of the liability for employees' compensation under the Employees' Compensation Ordinance, assist family members of the deceased to claim employees' compensation and closely follow up on the case. For those with financial difficulties, the LD will assist them to apply for appropriate emergency funds. Subject to the needs and wishes of family members of the deceased, the LD will also liaise with the Social Welfare Department for financial or other assistance.

For the sake of securing the safety and health of employees at work, the LD appeals to employers to provide plant and systems of work that are safe and without risks to health. Employees should co-operate with their employers, adopt all safety measures and use personal protective equipment provided properly to avoid endangering their own work safety and that of other workers.

## **Car retailer convicted of supplying vehicle with false trade description**

A car retailer was sentenced to carry out 100 hours of community service today (July 19) at Kowloon City Magistrates' Courts for supplying a second-

hand vehicle with a false trade description, in contravention of the Trade Descriptions Ordinance (TDO).

Hong Kong Customs earlier received information alleging that a second-hand car retailer had made a false claim to a consumer. After investigation, it was revealed that the retailer had supplied a second-hand vehicle bearing an odometer reading (travelling mileage) of 44,000 kilometres. Subsequently, it was confirmed that the vehicle's actual travelling mileage exceeded 130,000km.

Customs reminds traders to comply with the requirements of the TDO and consumers to procure products at reputable shops.

Under the TDO, any person who supplies goods with a false trade description in the course of trade or business, or is in possession of any goods for sale with a false trade description, commits an offence. The maximum penalty upon conviction is a fine of \$500,000 and imprisonment for five years.

Members of the public may report any suspected violations of the TDO to the Customs 24-hour hotline 2545 6182 or its dedicated crime-reporting email account ([crimereport@customs.gov.hk](mailto:crimereport@customs.gov.hk)).
