

## **Reading KOL Short Video Competition 2018 extends deadline**

To welcome more entries from interested persons, the submission deadline of the Reading KOL Short Video Competition 2018 held by the Hong Kong Public Libraries (HKPL) of the Leisure and Cultural Services Department will be extended two weeks to June 25 (Monday).

With an aim of encouraging members of the public to share the joy of reading and arouse their interest in reading, the competition consists of three categories, namely the primary, secondary and open categories (for all ages). Participants can make use of their creativity to produce and submit a video within two minutes to echo the theme. The entry video may be produced in Cantonese, Putonghua or English, and must be submitted together with a title and a brief description on the concept of the video in not more than 100 words, in Chinese or English.

Entry is on an individual basis. Each participant can only enter the competition in one category. While more than one entry is allowed, each participant will only qualify for one award. The judging criteria include content presentation, creativity, interestingness, use of techniques and positivity.

Each entry category will have one Champion, a First Runner-up, a Second Runner-up and three Merit Awards, and the most viewed finalist entry in each category will be presented with a Most Viewed Award. Cash coupons ranging from \$1,000 to \$8,000 and certificates will be awarded to the winners. To encourage more participation of students, the Most Active Participating School Award will be given out in the primary and secondary categories. All winners and winning schools will be notified by post in July.

The competition is supported by the Education Bureau with Sing Tao Daily and Smart Parents as media partners. It is part of a series of vibrant activities organised by the HKPL in support of a reading-for-all campaign themed "Discover and Share the Joy of Reading" launched by the Government earlier. For details of the competition, please visit [www.hkpl.gov.hk/en/extension-activities/page/133096/reading-kol](http://www.hkpl.gov.hk/en/extension-activities/page/133096/reading-kol) or call 2798 2870.

## Construction output for first quarter of 2018

The total gross value of construction works performed by main contractors in the first quarter of 2018 increased by 12.1% in nominal terms over a year earlier to \$65.9 billion, according to the provisional results of the Quarterly Survey of Construction Output released today (June 11) by the Census and Statistics Department (C&SD).

After discounting the effect of price changes, the provisional results showed that the total gross value of construction works performed by main contractors increased by 7.4% in real terms over the same period.

Gross value of construction works in real terms is derived by deflating the corresponding nominal value with an appropriate price index to the price level in the base period of 2000.

Analysed by type of construction works, the gross value of construction works performed at private sector sites totalled \$19.8 billion in the first quarter of 2018, up by 8.9% in nominal terms over a year earlier. In real terms, it increased by 7.5%.

The gross value of construction works performed at public sector sites increased by 13.3% in nominal terms over a year earlier to \$23.4 billion in the first quarter of 2018. In real terms, it increased by 8.1%.

The gross value of construction works performed by main contractors at locations other than construction sites amounted to \$22.7 billion in the first quarter of 2018, up by 13.8% in nominal terms compared with a year earlier. In real terms, it increased by 6.6%. Construction works at locations other than construction sites included minor new construction activities and decoration, repair and maintenance for buildings; and electrical equipment installation and maintenance works at locations other than construction sites.

Analysed by major end-use group, the gross value of construction works

performed at construction sites in respect of residential buildings projects amounted to \$17.9 billion in the first quarter of 2018, up by 16.2% in nominal terms over a year earlier. Over the same period, the gross value of construction works performed at construction sites in respect of transport projects up by 5.1% in nominal terms to \$12.8 billion in the first quarter of 2018.

On a seasonally adjusted quarter-to-quarter basis, the gross value of construction works performed by main contractors increased by 5.3% in nominal terms and increased by 3.5% in real terms in the first quarter of 2018 compared with the fourth quarter of 2017.

Table 1 shows the provisional figures on the gross value of construction works performed by main contractors in the first quarter of 2018. Tables 2 and 3 show the revised figures for the whole year of 2017 and the fourth quarter of 2017 respectively.

Owing to the widespread sub-contracting practices in the construction industry, a construction establishment can be a main contractor for one contract and a sub-contractor for another contract at the same time. The gross value of construction works performed by main contractors covers only those projects in which the construction establishment takes the role of a main contractor, but not projects in which it takes only the role of a sub-contractor. However, sub-contractors' contribution to projects should have been included in the gross value of construction works performed by main contractors for whom they worked.

The classification of construction establishments follows the Hong Kong Standard Industrial Classification Version 2.0, which is used in various economic surveys for classifying economic units into different industry classes.

More detailed statistics are given in "Report on the Quarterly Survey of Construction Output, 1st Quarter 2018".
