

FEHD orders Fanling restaurant to suspend business for 14 days

The Director of Food and Environmental Hygiene has ordered a restaurant in Fanling to suspend business for 14 days as the operator repeatedly breached the Food Business Regulation (FBR) by extending the business area illegally.

The restaurant, located at G/F, Fu Yin Building, 25 Luen On Street, Fanling, was ordered to suspend business from today (June 8) to June 21.

"In January and March this year, two convictions for the above-mentioned breach were recorded against the restaurant. A total fine of \$7,500 was levied by the court and 30 demerit points were registered against the licensee under the department's demerit points system. The contraventions resulted in the 14-day business suspension," a spokesman for the Food and Environmental Hygiene Department (FEHD) said.

The licensee of the restaurant had a record of two convictions for the same offence in June last year. A total fine of \$16,000 was levied and 30 demerit points were registered. The breaches led to business suspension for seven days in August last year.

The spokesman reminded licensees of food premises to comply with the FBR, or their licences could be suspended or cancelled.

Licensed food premises are required to exhibit a sign, at a conspicuous place near the main entrance, indicating that the premises have been licensed. A list of licensed food premises is available on the FEHD's website (www.fehd.gov.hk/english/licensing/index.html).

EMSD announces test results of LPG quality in May 2018

The Electrical and Mechanical Services Department (EMSD) today (June 8) announced that the department collected 10 liquefied petroleum gas (LPG) samples from auto-LPG filling stations and LPG terminals on a random basis in May 2018 for laboratory tests. The results showed that the LPG quality of all these samples complied with auto-LPG specifications.

The detailed test results are available on the EMSD's website (www.emsd.gov.hk/emsd/eng/sgi/lpg_smpl_analysis.shtml). Enquiries can also be

made to the EMSD's hotline on 2333 3762.

In addition, the EMSD has been vetting independent third-party test reports submitted by LPG supply companies for each shipment to ensure that the quality of imported LPG complies with the specified requirements.

[Update on number of dengue fever cases](#)

The Centre for Health Protection (CHP) of the Department of Health today (June 8) reported the latest number of cases of dengue fever (DF), and again urged the public to maintain strict environmental hygiene, mosquito control and personal protective measures both locally and during travel.

From June 1 to 7, the CHP recorded six confirmed DF cases. The patients had been to Thailand (three cases), Cambodia (one case), the Maldives (one case) and the Philippines (one case) during the incubation period.

As of yesterday (June 7), 29 cases had been confirmed this year, all of which were imported cases. The cases were mainly imported from Thailand (13), the Philippines (seven) and Cambodia (three).

DF remains endemic in some areas in Asia. The latest figures for 2018 reveal that 14 973 cases have been recorded in Thailand, 1 166 in Singapore (since December 31, 2017) and 49 in Japan. In the Americas, the latest figures indicate that 9 632 cases have been filed in Mexico in 2018.

The public should take heed of the following advice on mosquito control:

- Thoroughly check all gully traps, roof gutters, surface channels and drains to prevent blockage;
- Scrub and clean drains and surface channels with an alkaline detergent compound at least once a week to remove any deposited mosquito eggs;
- Properly dispose of refuse, such as soft drink cans, empty bottles and boxes, in covered litter containers;
- Completely change the water of flowers and plants at least once a week. The use of saucers should be avoided if possible;
- Level irregular ground surfaces before the rainy season;
- Avoid staying in shrubby areas; and
- Take personal protective measures such as wearing light-coloured long-sleeved clothes and trousers and apply insect repellent containing DEET to clothing or uncovered areas of the body when doing outdoor activities.

To reduce the risk of infections spread by mosquitoes, apart from [general measures](#), travellers returning from affected areas should apply

insect repellent for 14 days (DF) or at least 21 days (Zika virus infection) upon arrival in Hong Kong. If feeling unwell, seek medical advice promptly and provide travel details to the doctor. DEET-containing insect repellents are effective and the public should take heed of the tips below:

- Read the label instructions carefully first;
- Apply right before entering an area with risk of mosquito bites;
- Apply on exposed skin and clothing;
- Use DEET of up to 30 per cent for pregnant women and up to 10 per cent for children*;
- Apply sunscreen first, then insect repellent; and
- Re-apply only when needed and follow the instructions.

* For children who travel to countries or areas where mosquito-borne diseases are endemic or epidemic and where exposure is likely, those aged 2 months or above can use DEET-containing insect repellents with a concentration of DEET of up to 30 per cent.

The public may refer to the CHP's [tips for using insect repellents](#) for details.

SHA to attend youth event in Shenzhen

The Secretary for Home Affairs, Mr Lau Kong-wah, will depart for Shenzhen on Sunday morning (June 10) to attend the 2018 Shenzhen Hong Kong Macao Youth Entrepreneurship Summit.

Co-organised by the Hong Kong United Youth Association, the Shenzhen Overseas Friendship Association and the Shenzhen Public Innovation Space Association, the summit aims to give young people an insight into the entrepreneurship opportunities brought about by the development of the Guangdong-Hong Kong-Macao Bay Area. Around 50 Hong Kong youths will attend the summit on Sunday. They will also visit the creative hub and exhibition of creative products and attend sharing sessions.

Mr Lau will return to Hong Kong in the afternoon on the same day.

Missing man in Hung Hom located

A man who went missing in Hung Hom was located.

Lo Tin-cheung, aged 40, went missing after he left his residence in Ho Man Tin Estate on February 5. His family made a report to Police on February 8.

The man was located in Tsim Sha Tsui MTR Station this morning (June 8). He sustained no injuries and no suspicious circumstances were detected.
