

EMSD announces latest sampling results for legionella at fresh water cooling towers

The Electrical and Mechanical Services Department (EMSD) today (June 7) announced that the department tested 91 water samples collected from cooling towers in 85 buildings in its routine inspections in May this year. None of them was detected to have a total legionella count at or above the upper threshold, which is 1 000 colony-forming units per millilitre. The latest statistics are set out in Annex 1.

The EMSD also announced the locations of buildings which were served with nuisance notices during the preceding three-month period as the total legionella count was found in the fresh water cooling towers to be equal to or above the upper threshold. Details can be found in Annex 2. The EMSD publishes the latest statistics of the above information on a half-monthly basis on its website

(www.emsd.gov.hk/en/other_regulatory_services/cooling_towers/water_sampling/index.html).

The EMSD reminds the owners of fresh water cooling towers that they have the responsibility to design, operate and maintain cooling towers properly. They should arrange regular inspections, timely maintenance and periodic testing of the water quality in their cooling towers in accordance with the Code of Practice for Fresh Water Cooling Towers issued by the department to prevent the proliferation of legionella.

Care centres remain open

Attention duty announcers, radio and TV stations:

Please broadcast the following special announcement immediately, and repeat it at frequent intervals:

The Social Welfare Department announces that while Tropical Cyclone Warning Signal No. 3 has been issued, all child care centres, centres providing after school care programmes, elderly services centres and day rehabilitation units, including sheltered workshops, integrated vocational rehabilitation services centres and day activity centres, remain open. However, if necessary, members of the public can contact the centres to make arrangements for the safe return home of their children and family members.

Make prior work arrangements for typhoons and rainstorms

The Labour Department (LD) today (June 7) reminded employers to make prior work arrangements for staff in times of typhoons and rainstorms as soon as possible.

"To avoid disputes and confusion, employers should make prior work arrangements for staff and contingency measures in times of typhoons and rainstorms," an LD spokesman said.

"In working out and enforcing the arrangements, employers should give prime consideration to employees' safety both in the workplace and during their journeys to and from work, and adopt a flexible approach. Whenever possible, they should consult their staff."

The work arrangements should cover the following matters:

- * Whether employees are required to report for duty when different typhoon signals or rainstorm warnings are issued;
- * When a typhoon signal or rainstorm warning is issued during working hours, whether employees will be released from work and, if so, the arrangements;
- * After a typhoon signal or rainstorm warning is cancelled, the time for staff who have not reported for duty to resume work and the arrangements;
- * How wages and allowances (if any) will be calculated for staff who are required to report for duty and those who are late for work or absent from work during typhoons and rainstorms; and
- * For employees who are required to travel to and from workplaces during typhoons and rainstorms, whether transport facilities will be provided to them and, if so, the arrangements.

"Employers should make realistic assessments of the requirements for essential staff and require only absolutely essential staff to report for duty in adverse weather conditions. When weather conditions continue to worsen and public transport services are to be suspended shortly, employers should release their staff as soon as practicable.

"When a Pre-No. 8 Special Announcement is issued during working hours, employers should release employees from work in stages as soon as practicable. To ensure the safety of employees and to enable them to arrive home before suspension of public transport services, employees who have mobility problems (for example, pregnant employees or those with physical disability), employees who rely on transport services which are prone to being affected by adverse weather conditions (for example, ferry services) for commuting to and from work, and those who work in or are living in remote areas (for example, outlying islands) should be given priority to leave.

Other employees should be released later in stages according to their travelling distance or the time required for returning home.

"If possible, employers should provide transport services for employees who are still required to travel to and from workplaces when Typhoon Warning Signal No. 8 or above or the Black Rainstorm Warning is in force, or give them a special travelling allowance as encouragement.

"As typhoons and rainstorms are natural calamities that cannot be avoided, employers should not deduct wages of employees who are absent from or late for work because of inclement weather. Neither should employers dismiss an employee summarily based on these grounds," he said.

The spokesman also reminded employers to observe the statutory liabilities and requirements under the Employment Ordinance, the Occupational Safety and Health Ordinance, the Employees' Compensation Ordinance and the Minimum Wage Ordinance.

Employers should also note that they have an obligation to maintain a safe workplace for their employees under the Occupational Safety and Health Ordinance.

"If employees are required to work in times of typhoons and rainstorms, employers should ensure that the risks at work are properly controlled and reduced to levels that are as low as reasonably practicable," the spokesman said.

Under the Employees' Compensation Ordinance, employers are liable to pay compensation for deaths or injuries incurred when employees are travelling by a direct route from their residences to workplaces, or from workplaces back to residences after work, four hours before or after working hours on a day when Typhoon Signal No. 8 or above or a Red or Black Rainstorm Warning is in force.

To provide practical guidelines and samples of work arrangements for the reference of employers and employees, the LD has issued the booklet "Code of Practice in times of Typhoons and Rainstorms". The code can be obtained from the branch offices of the Labour Relations Division or downloaded from the department's webpage (www.labour.gov.hk/eng/public/wcp/Rainstorm.pdf).

[LegCo committee meetings](#)

The following is issued on behalf of the Legislative Council Secretariat:

The Legislative Council (LegCo) Subcommittee on Proposed Resolution under section 4(5) of the Fatal Accidents Ordinance (Cap. 22) will hold its

first meeting at 9am tomorrow (June 8) in Conference Room 3 of the LegCo Complex. During the meeting, members of the Subcommittee will elect a Chairman.

Meanwhile, the meeting of the LegCo Finance Committee originally scheduled at 3pm tomorrow in Conference Room 1 of the LegCo Complex will start at 4pm.

Red flags hoisted at several beaches **(2)**

Attention TV/radio announcers:

Please broadcast the following as soon as possible:

Here is an item of interest to swimmers.

The Leisure and Cultural Services Department announced today (June 7) that due to big waves, red flags have been hoisted at Stanley Main Beach, Turtle Cove Beach, Shek O Beach and Big Wave Bay Beach in Southern District, Hong Kong Island; Hap Mun Bay Beach, Clear Water Bay First Beach and Clear Water Bay Second Beach in Sai Kung District. Beach-goers are advised not to swim at these beaches.
