

## FEHD strives to crack down on sale of chilled or frozen meat disguised as fresh meat (with photo)

The Food and Environmental Hygiene Department (FEHD) has long been committed to combating the sale of chilled or frozen meat disguised as fresh meat, and raided a licensed fresh provision shop (FPS) in North District suspected of selling frozen meat as fresh meat today (June 27).

During the operation, FEHD officers raided a licensed FPS in the market of the Queens Hill Shopping Centre in Fanling, and marked and sealed about 206 kilograms of suspected frozen beef for further investigation. A beef sample was also collected for detection of preservatives. Prosecution will be initiated if sufficient evidence is collected. The licensee of the FPS is suspected of breaching the licensing condition for the display and sale of frozen meat as fresh meat, and the FEHD is proceeding with the cancellation of the FPS's licence.

FEHD officers also initiated prosecution against the operator of the FPS for dirtiness of the premises. A verbal warning was also given for non-compliance with the relevant licensing condition for failing to provide delivery notes for inspection.

ã€€

A spokesman for the FEHD said, "The selling of chilled or frozen meat disguised as fresh meat breaches the licensing condition and causes food safety problems. The operation of these profiteers is unfair to other shops that comply with the requirements."

ã€€

The spokesman added, "Anyone selling chilled or frozen meat without permission commits an offence and is liable to a maximum fine of \$50,000 and six months' imprisonment on conviction. The department will continue to conduct regular inspections at licensed FPSs and market meat stalls, and will actively handle the complaints received. In detecting any irregularities, the FEHD will carry out immediate investigations and take appropriate enforcement action. In addition, the FEHD also proactively investigates suspected violations from time to time, and conducts surprise inspections and enforcement action as necessary. If there is sufficient evidence, prosecution will be initiated and follow-up action will be taken against the breach of licensing conditions or tenancy agreements. The licences of FPSs breaching the licensing conditions may be cancelled, while the tenancies of market meat stalls breaching the tenancy agreements may be terminated."

The spokesman stressed that the FEHD is very concerned about the situation, and has been committed to combating the sale of chilled or frozen meat disguised as fresh meat by taking stringent enforcement action against the violations.

## [Hong Kong Customs seizes suspected dangerous drugs worth about \\$9 million in anti-narcotics operation \(with photo\)](#)

Hong Kong Customs on June 25 seized a total of about 15 kilograms of suspected dangerous drugs with an estimated market value of about \$9 million in Tsuen Wan.

Through risk assessment, Customs on that day inspected three air parcels, declared as carrying pet food, snacks and seasonings and arriving in Hong Kong from the United States, at a warehouse of a local consolidator company in Tsuen Wan. Upon inspection, Customs officers found that three parcels had suspected dangerous drugs concealed inside, including about 9 kilograms of suspected methamphetamine and about 6 kilograms of suspected liquid cocaine.

After a follow-up investigation, Customs officers conducted a controlled delivery operation yesterday (June 26) in Tsuen Wan and arrested two male consignees, aged 17 and 18. The two arrested persons have been jointly charged with one count of trafficking in a dangerous drug. They will appear at the West Kowloon Magistrates' Courts tomorrow (June 28).

Customs will continue to step up enforcement against drug trafficking activities through intelligence analysis. The department also reminds members of the public to stay alert and not to participate in drug trafficking activities for monetary return. They must not accept hiring or delegation from another party to carry controlled items into and out of Hong Kong. They are also reminded not to carry unknown items for other people, nor to release their personal data or home address to others for receiving parcels or goods.

Under the Dangerous Drugs Ordinance, trafficking in a dangerous drug is a serious offence. The maximum penalty upon conviction is a fine of \$5 million and life imprisonment.

Customs reminds young people to pay attention to the fact that drug trafficking is a serious criminal offence. Criminal conviction will result in grave repercussions for their future and they should not take risks in the hope that they may not be caught.

Members of the public may report any suspected drug trafficking activities to Customs' 24-hour hotline 2545 6182 or its dedicated crime reporting email account ([crimereport@customs.gov.hk](mailto:crimereport@customs.gov.hk)) or online form ([eform.cefs.gov.hk/form/ced002/](http://eform.cefs.gov.hk/form/ced002/)).

## [Research Grants Council announces funding results of General Research Fund and Early Career Scheme 2024/25](#)

The following is issued on behalf of the University Grants Committee:

The Research Grants Council (RGC) today (June 27) announced the funding results of the General Research Fund (GRF) and the Early Career Scheme (ECS) for 2024/25. Altogether, 1 255 successful proposals were granted funding totalling \$1.1 billion.

In this round of exercise, the RGC received 3 533 GRF and 634 ECS applications from academic staff of the eight universities funded by the University Grants Committee. This represents an increase of 10 per cent and 21 per cent respectively as compared with that of last round.

After rigorous international peer reviews, 1 046 GRF projects were approved with a total funding of around \$980 million, which compares with

that of last year, with an overall success rate of about 30 per cent. The funded proposals cover all the disciplines of business studies, biology and medicine, engineering, humanities and social sciences, and physical sciences.

Moreover, the RGC also decided to fund 209 ECS projects with a total amount of around \$140 million. This represents an increase of 12 per cent in terms of the number of projects funded, with an overall success rate of about 33 per cent.

The RGC Subject Panels commended the marked improvement in the overall quality of research proposals submitted under the GRF and ECS in recent years, including the originality of the proposals as well as the innovative methodologies that they put forward to tackle research questions. The research outcomes will support further development in various research fields.

The Chairman of the RGC, Professor Timothy W. Tong said, "It is heartening to see the enthusiasm of the Hong Kong research community in taking forward individual exploratory research as evidenced by the significant increase in the number of applications and the outstanding research quality in this round of exercise.

"The RGC endeavours to propel the growth of the thriving Hong Kong research ecosystem by administering different individual and collaborative research funding schemes. Amongst them, the GRF and ECS, which support all research disciplines for individual researchers, are instrumental in the Council's mission to develop a robust research base for maintaining academic vigour and catering to the needs of Hong Kong."

The RGC has stepped up efforts in recent years in supporting early-stage researchers in Hong Kong to further bolster Hong Kong's capacity as a world-leading education and innovation hub. Professor Tong said that it was encouraging to see an increased number of proposals funded under the ECS this year. The RGC looks forward to remarkable research outcomes from these talented individuals.

The GRF and the ECS are individual research funding schemes under the RGC. The GRF supplements universities' own research support for researchers who have achieved or have the potential to achieve excellence. The ECS aims to nurture junior academics and prepare them for a career in education and research. Following international practice, the RGC has adopted a peer-review mechanism to assess research proposals primarily based on academic quality and merit.

The 2024/25 funding results of the GRF and the ECS are available on the RGC website (GRF: [ugc.edu.hk/eng/rgc/funding\\_opport/grf/funded\\_research.html](https://ugc.edu.hk/eng/rgc/funding_opport/grf/funded_research.html); ECS: [ugc.edu.hk/eng/rgc/funding\\_opport/ecs/funded\\_research.html](https://ugc.edu.hk/eng/rgc/funding_opport/ecs/funded_research.html)).

## **HKMA and SFC conclude annual updates to Financial Services Providers list under OTC derivatives regulatory regime**

The following is issued on behalf of the Hong Kong Monetary Authority:

The Hong Kong Monetary Authority (HKMA) and Securities and Futures Commission (SFC) today (June 27) issued [joint consultation conclusions](#) on the annual updates to the list of Financial Services Providers (FSP List) (Note 1) under the over-the-counter (OTC) derivatives clearing regime.

Having considered [market feedback](#), the HKMA and SFC will implement the proposed changes to the FSP List as set out in the joint consultation paper (Note 2) with a minor modification to reflect a post-consultation change in the status of an existing FSP. The consultation conclusions paper and updated FSP List are available on the websites of the [HKMA](#) and [SFC](#) (Note 3).

Note 1: The FSP List includes entities that meet the following two criteria:  
(a) They belong to a group of companies that appears on either the list of global systemically important banks published by the Financial Stability Board, or the list of dealer groups which undertook to the OTC Derivatives Supervisors Group to work collaboratively with central counterparties, infrastructure providers and global supervisors to continue to make structural improvements to the global OTC derivatives markets; and  
(b) They are clearing members of the largest central counterparties offering clearing for interest rate swaps in the United States, Europe, Japan and Hong Kong.

Note 2: See the April 2024 [joint consultation paper](#) on the annual updates to the FSP List.

Note 3: The updated FSP List will be gazetted during the fourth quarter of 2024 for implementation on January 1, 2025.
