

Territory-wide flag day today

The Hong Kong Federation of Trade Unions Hong Ling Society has been issued a Public Subscription Permit to hold a territory-wide flag sale from 7am to 12.30pm today (June 1), a spokesman for the Social Welfare Department (SWD) said.

Details of the charitable fund-raising activities, including any updated information, covered by the issued Public Subscription Permits have been published on the GovHK website (www.gov.hk/en/theme/fundraising/search). Permits for flag days containing information on contact methods of the flag-selling organisations and the approved flag-selling activities have also been uploaded to the SWD's website (www.swd.gov.hk/en/ngo/controlofc/flagdays) for reference. For enquiries, please call the SWD's hotline at 2343 2255, or the designated hotline of the 1823 Call Centre at 3142 2678.

In the case of suspected fraudulent flag day activities, people should not make any donation and should immediately report the matter to the Police, the spokesman added.

SWD urges public not to take children/family members to care centres

Attention duty announcers, radio and TV stations:

Please broadcast the following special announcement immediately, and repeat it at frequent intervals:

"Due to the issuing of Tropical Cyclone Warning Signal No. 3, the Social Welfare Department advises members of the public not to take their children or family members to child care centres, centres providing after school care programmes, elderly services centres or day rehabilitation units including sheltered workshops, integrated vocational rehabilitation services centres, integrated vocational training centres and day activity centres. Members of the public who have the need for the services mentioned may contact the centres or service units concerned and confirm their operation hours in advance."

Classes of kindergartens and some special schools are suspended

Attention TV and radio duty announcers:

Please broadcast the following special announcement by the Education Bureau concerning schools, and repeat it at suitable intervals:

As the Tropical Cyclone Warning Signal no. 3 is now in force, classes of kindergartens, schools for children with physical disability and schools for children with intellectual disability are suspended today.

Employers, contractors and employees should be aware of electrical safety at work during rainstorm

As the rainstorm warning has been issued by the Hong Kong Observatory, the Labour Department (LD) reminds employers and contractors that they should adopt necessary work arrangements and take suitable safety measures to protect the safety of their employees when they are carrying out electrical work or handling electrical plant.

A spokesman for the LD said today (June 1) that employers and contractors should avoid assigning employees to carry out electrical work (like electric arc welding work) or handle electrical plant at places affected by rainstorms, and should refer to the "Code of Practice in Times of Adverse Weather and 'Extreme Conditions'" and the "Guide on Safety at Work in times of Inclement Weather" issued by the LD.

Even if electrical work is carried out or electrical plant is handled at places not affected by the rainstorm, suitable safety measures must still be adopted to prevent electric shock as the air would be more humid. Such measures include:

- (i) Ensure that all live parts of an electrical installation are isolated from the power supply source and rendered dead, and the isolation from the power supply source must be maintained as long as electrical work is being carried out;
- (ii) Before carrying out any electrical work or handling any electrical plant, cut off and lock out the power supply source, then test the circuit concerned to confirm it is dead and display suitable warning notices, and

issue a work permit thereafter;

(iii) Ensure that protective devices (such as suitable and adequate fuses and circuit breakers) for the electrical installations or electrical plant have been installed and maintained in good working order, and portable electric tools must be double-insulated or properly earthed;

(iv) Provide suitable personal protective equipment such as insulating gloves and insulating mats for employees; and

(v) If live electrical work is unavoidable, a comprehensive risk assessment should be conducted by a competent person and the appropriate safety precautions should be taken to remove or properly control the electrical hazards involved before such work can proceed.

In addition, employees should co-operate with the employer or contractor to follow the safety instructions and use the safety equipment provided.

The LD has published guidebooks and leaflets on electrical work safety. These safety publications are available free from divisional offices of the department or can be downloaded from its website (www.labour.gov.hk/eng/public/content2_8.htm).

Should there be any questions about occupational safety and health matters, please contact the Occupational Safety Officer of the LD at 2559 2297.
