

Guidance: Nuclear research if there's no Brexit deal

If the UK leaves the EU in March 2019 without a deal, find out how this would affect the UK's participation in the Euratom (the European Atomic Energy Community) Research and Training Programme, and future civil nuclear research in the UK.

Guidance: State aid if there's no Brexit deal

Find out how state aid givers and beneficiaries will be affected if the UK leaves the EU in March 2019 with 'no deal'.

Official Statistics: RHI deployment data: July 2018

Monthly statistics for the Renewable Heat Incentive (RHI) programme present the number of applications and accredited installations on the non-domestic and domestic schemes so far.

National Statistics: Household Energy Efficiency National Statistics,

headline release August 2018

This release includes measures installed under the Energy Company Obligation (ECO) and the Green Deal schemes. It also includes further analysis and geographical breakdowns of ECO measures, ECO delivery costs, estimated carbon and energy savings from measures installed and the supply chain. These statistics are provisional and are subject to future revisions.

Open consultation: Proposed catch limits for September 2018

The Marine Management Organisation (MMO) sets monthly catch limits for quota species to ensure the UK stays within the overall limit set by the EU. These limits apply to all under 10 meter vessels and the over 10 meter vessels that are not in a co-operative (Producer Organisation).

Please contact the MMO if you have any comment to make about the suggested catch limits which will be put into force on 1 September 2018.

Comments to be received no later than 12pm Tuesday 28 August 2018.

The MMO will regularly consult industry on monthly or other catch limits and will, wherever possible, ensure that any representations are taken into account when setting such limits. However, the MMO must reserve the right to alter catch limits and/ or close fisheries without prior notice or consultation in the event that such actions are necessary and expedient for the regulation of sea fishing.
