

[News story: Work underway at Kilbowie Road, Clydebank](#)

The Coal Authority has taken responsibility for the site and the repair works will take between 6 to 8 weeks to complete.

Only a 6 metre deep hole is visible at the road surface, but this leads to the shaft which goes down a further 56 metres to a total depth of 62 metres.

Work began last week with stone, pressurised grouting and a concrete plug being needed to stabilise the ground. Once the shaft is filled, work will begin on reconstructing the road.

Tim Marples, Head of Public Safety and Subsidence for the Coal Authority, said that work to repair the collapse in Kilbowie Road has already begun.

He added: "The unrecorded shaft at Kilbowie Road is one of our top operational priorities and our prime concern is the safety of the public.

"Our engineers have designed a solution to safely fill the shaft and repair the road and we're working with West Dunbartonshire Council and the utility companies on our proposals.

"This particular repair is complicated by the exposed utility services within the 62 metre deep void, which we're working to protect.

"From our experience, the work will take between 6 to 8 weeks to complete and cost in the region of £250,000.

"Our aim is get the road re-opened as soon as possible to minimise the impact on local residents and traffic. We apologise for the inconvenience and disruption caused presently and during the forthcoming works."

[Transparency data: Harwich Haven authority – Trial disposal](#)

Harwich Haven Authority (HHA) is seeking to have a new dredged material disposal site designated. Some of the dredged material is used in beneficial reuse schemes with the remainder disposed of at a licensed offshore disposal ground called Inner Gabbard located about 30km east of Harwich. HHA believe

that a disposal site closer to shore would help reduce carbon dioxide emissions, steaming time and fuel.

The MMO has granted Harwich Haven Authority a marine licence that permits 2 trial disposals of 500,000 cubic metres of dredged material arising from maintenance dredging at Harwich and Felixstowe Harbour. The trial disposal site is referred to as the Harwich Haven disposal site (Cefas Site Code: TH027).

A condition of this licence is that monitoring data is collected during the course of the two trial disposal campaigns and a Monitoring Report is submitted to the MMO within four months of completion of the two trial campaigns. This Monitoring Report can be viewed on this page.

The monitoring report aims to provide the information necessary to inform the MMO's assessment of the suitability of the proposed new site for designation to receive future dredged material.

The MMO is not obliged by statute to consult publically on this issue but the MMO has always been of the view that the general public and not just known stakeholders should have the opportunity to make representations.

If you would like to make a representation please make sure that you do so in writing using the contact details on this page. Representations should quote reference L/2013/00392.

Notice: MK18 2HF, FCC Waste Services (UK) Limited: environmental permit issued EPR/BS8605IQ/S012

The Environment Agency publish surrenders that they issue under the Industrial Emissions Directive (IED).

This decision includes the surrender letter and decision document for:

- Operator name: FCC Waste Services (UK) Limited
 - Installation name: Calvert Landfill Site
 - Permit number: EPR/BS8605IQ/S012
-

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: FCC Waste Services (UK) Limited
- Installation name: Calvert Landfill Site (Pit 6)
- Permit number: EPR/BP3637AF/A001

Press release: Fishing cheats land big fines in court in Middlesex

Anglers had penalties of over £450 each imposed at Uxbridge magistrates Court on 6 February 2017 for fishing illegally, without an Environment Agency rod licence.

Adam Younie 26 of Haverhill, John Tibbs 46 of Romford, and Steve Sullivan 48 were caught fishing without a licence by Environment Agency fisheries enforcement officers at Thorney Weir lakes, West Drayton, Middlesex. Each were fined £300 (with £127 costs and £30 victim surcharge) when an Environment Agency annual licence at the time, cost just £27.

All anglers failed to appear in court. Environment Agency Fisheries Team Leader, Richard Tyner said:

We check licences across all fisheries in Hertfordshire and Essex, and work in partnership with fishery owners and the police to detect and deter fisheries crime. People who don't buy a licence are cheating other anglers and the future of the sport. The Environment Agency relies on the income from rod licence sales to continue the important work we do to protect fish stocks, improve fisheries and encourage more people to take up fishing.

If you are caught fishing without a rod licence you risk a criminal conviction and a fine up to £2,500. There is no excuse. Annual rod licences for trout and coarse fishing remain at £5 for 12 to 16 year olds, £18 for senior and disabled concessions and £27 for non-concessions. Children under

12 can fish for free. Licences are easy to buy from the Post Office website or by phone on 03448 005 386 prior to fishing. Anglers should always ensure they have permission to fish at a fishery and check Environment Agency byelaws.

Last year, Environment Agency officers checked more than 62,000 licences and prosecuted more than 1,900 licence cheats. Between them, they were ordered to pay fines and costs in excess of £600,000. To help crack down on unlicensed fishing, the Environment Agency urges anyone to report illegal activity by calling 0800 80 70 60 or anonymously to Crimestoppers on 0800 555 111.

Money raised from rod licence sales is reinvested in the environment, including; a wide range of projects to improve facilities for anglers, protecting stocks from illegal fishing, fish restocking, invasive species eradication, and working with partners to encourage people to take-up fishing for the first time.
