

Transparency data: Goodwin Sands Aggregate Dredging Scheme

Updated: We have updated the page to reflect the marine licence decision

On 19 May 2016 Dover Harbour Board (DHB) submitted an application to the Marine Management Organisation (MMO) for a marine licence to carry out aggregate dredging at Area 521, known as the South Goodwin Sands.

The original application proposed the dredging of a maximum total of 3,750,000 tonnes of aggregate within the South Goodwin Sands sandbank system using trailer suction hopper dredgers to provide material for land reclamation works and berth construction works as part of the wider Dover Western Docks Revival project.

A public consultation was started on 9 June 2016 and ended on 20 July 2016.

The MMO requested further information from DHB to assess the impacts of the proposed dredging. A further public consultation on this additional information started on 6 October 2016 and ended on 16 November 2016.

On 20 December 2016 the MMO requested additional information from Dover Harbour Board to assess the impacts of the proposed dredging. A further consultation on this additional information started on 17 August 2017 and ended on 28 September 2017.

The application for a marine licence was updated in Autumn 2017 to:

- reduce the volume of material required;
- reduce the proposed dredge area; and
- alter the timeline of the indicative dredging programme.

Between Autumn 2017 and July 2018 the MMO has been taking necessary steps to ensure that the process to assess the proposed development was in compliance with the Marine Works (EIA) Regulations 2007 (as amended) and Marine and Coastal Access Act 2009, amongst other relevant legislation. This included taking into account relevant representations made as part of the consultation process and obtaining guidance from our primary advisers.

[On 26 July 2018 the MMO announced](#) it had granted a marine licence giving DHB permission to extract up to 3 million tonnes of aggregate by trailer suction hopper dredging, which is proposed to be undertaken between September 2019 and September 2020.

In reaching its decision the MMO has considered Section 69 of the Marine and Coastal Access Act 2009, in particular the need to protect the environment, the need to prevent interference with legitimate uses of the sea and other such relevant matters. The MMO has taken into account the evidence provided; the comprehensive consultations; and the clear conclusions of the EIA Consent

Decision on individual issues, which includes consideration of the nature of the proposed activity (the campaign of dredging) and the likely significant effects both individually and cumulatively in reaching its marine licence decision.

The EIA Consent Decision document included on this page explains the steps taken by the MMO in reaching its EIA Decision and subsequent Marine Licence determination, and the evidence on which its conclusions were based.

All relevant documentation, including the updated marine licence application, further information requests and responses and representations received following the first and second consultation period, is available from the [MMO marine licensing public register](#) (case reference is MLA/2016/00227).

For more information contact the Marine Licensing Team. Phone: 0300 123 1032 or email: marine.consent@marinemanagement.org.uk.

[Collection: Bovine TB: controlling the risk of bovine TB from badgers](#)

Updated: New document added

This collection brings together information on what Defra is doing to control the risk of bovine TB from badgers, as part of our wider [measures to control bovine TB](#).

[Detailed guide: BPS 2017](#)

Updated: We have included information for farmers with a 2017 BPS claim worth more than €2,000 as they will receive a reimbursement from the 2016 Financial Discipline Mechanism fund.

Latest news

Financial Discipline Mechanism (FDM) reimbursement

Farmers with a 2017 BPS claim worth more than €2,000 will receive a reimbursement from the 2016 FDM fund. Read the [‘Financial Discipline Mechanism Reimbursement’](#) section below for more information about the

reimbursement.

The information on this page relates to the BPS 2017 scheme year.

For the latest news and information about BPS 2018, click [here](#).

For the latest news and information about BPS 2019, click [here](#).

20 December – BPS 2017 payments update

More than 71,000 farmers have now received their BPS 2017 payments.

Payments have been made to just under 84% of eligible claimants, worth some £1.3bn in total so far. More BPS payments will be released in the next few days and during next week.

7 December – Commons eligibility checks

These are checks on the eligibility of land cover on common land. For more information about these checks please see [commons eligibility checks](#).

15 November – ‘An update on the Basic Payment scheme’ is published

2017 payments: payments for BPS 2017 will start on 1 December. To find out more, read

[An update on the Basic Payment Scheme](#)

(PDF, 607KB, 4 pages)

which explains:

- why some claims may not be paid in December
- important updates about greening
- cross compliance update
- preparing for BPS 2018

15 November – Greening Administrative Penalties

These are additional penalties that will be applied to the greening part of Basic Payment Scheme payments from 2017 onwards. For more information about these penalties please see [greening administrative penalties](#).

How BPS 2017 payments are calculated

To find out how payments are calculated, read the 'Payments, Reductions and Penalties' section of the [Basic Payment Scheme: rules for 2017](#). Page 89 explains how RPA calculates payments.

You may also need to read information about [greening administrative penalties](#) that apply from BPS 2017.

[Common land grazing rights](#)

(PDF, 636KB, 54 pages)

– to find out how the value of the common land part of the BPS payment is calculated read the [example below](#).

The BPS 2017 exchange rate is: €1 = £0.89470.

Entitlement values for 2017

Payment region	Entitlement value
Non-SDA (Severely Disadvantaged area)	€180.46
SDA	€178.90
SDA moorland	€49.63

Greening payment rates for 2017

Payment region	Greening payment rate
Non-SDA (Severely Disadvantaged area)	€77.69
SDA	€76.92
SDA moorland	€21.32

Payment queries from previous years

If you have a query about a BPS payment that you've received, please fill in a [BPS payment query form](#) and send it to RPA.

Commons eligibility checks 2017

RPA regularly checks and [updates its digital maps](#). This includes common land. Land cover eligibility on common land is checked using the latest enhanced satellite images and a limited number of supplementary physical land checks. These checks are different from RPA's usual land eligibility checks. The main differences are:

- RPA is checking the eligibility of the land cover on commons and not land boundaries

- RPA is surveying the eligible area of a common separately to the enclosed land farmed by the common land graziers who declared grazing rights on the common for BPS
- Graziers claim for a common by declaring their grazing rights rather than applying directly for an area of land. This means that there will be no penalties for over-declaring if RPA discovers the eligible area is less than previously used

When and where to check for changes

RPA needs to make sure that all land data on their systems is no more than 3 years old. These checks are carried out on an ongoing basis. This means each common will not be checked every year.

After a common is checked, if the eligible area has changed, RPA will write to those customers who declare rights on it. RPA will publish the [new eligible area and updated information on these checks](#) on GOV.UK.

The changes might affect the value of customers' BPS 2017 and agri-environment and woodland claims and payments.

This is because the 'notional area' used to calculate a customer's 2017 BPS payment may be less than last year. Therefore, their 2017 BPS payment may be lower than they are expecting.

Read more information about how the 'notional area' of the common is calculated on page 28 of the [Basic Payment Scheme: rules for 2017](#) (PDF, 4.33MB, 118 pages)

.

What to do if you do not agree with the updates

Customers who want to query the revised eligible area need to discuss their query with the other commoners, and relevant Commons Association or equivalent organisation, to reach an agreed view.

It is important that individual customers do not make any changes to the land cover on the common, such as removing scrub, without discussing it with the other graziers/commoners. This is because it might affect the scheme agreements in place with other commoners.

Once customers have reviewed and discussed the findings with the other commoners, if they still want to query or disagree with RPA's findings, they can call RPA on 03000 200 301.

RPA will focus on making payments using the updated eligible areas and then will review any queries received. This is to avoid delays in making payments.

Example calculation:

How the value of the common land part of the BPS payment is calculated.

The common has:

- an eligible area of 300ha; and
- grazing rights being claimed under BPS for 200 sheep and 70 cattle.

RPA must calculate the livestock unit (LU) value of all the rights being claimed for the common:

- Each sheep is equivalent to 0.15 LU, so the calculation for the sheep grazing rights being claimed is:
 $200 \text{ sheep} \times 0.15 \text{ LU} = 30 \text{ LU}$
- Each adult cow is 1 LU, so the calculation for the cattle grazing rights being claimed is: $70 \text{ cattle} \times 1 \text{ LU} = 70 \text{ LU}$
- The total LU being claimed for the common is therefore:
 $30 \text{ LU} + 70 \text{ LU} = 100 \text{ LU}$
- The area to be allocated for each LU claimed for the common is calculated as: $300\text{ha} / 100 \text{ LU} = 3.0\text{ha/LU}$
- If the farmer declared 40 LU of rights to activate entitlements on their BPS 2017 application they would be allocated $3.0\text{ha/LU} \times 40 \text{ LU} = 120\text{ha}$ of the total eligible area of the common.
- This area will be used to activate entitlements in the same way as any other land declared by the farmer on their application. The examples shown above under 'Main BPS payment' and 'Average entitlement value' show how this is done.

The above examples are based on a single common and do not take account of any split rights.

Rural Payments service

You can use the [Rural Payments service](#) to:

- Register for rural payments
- View your BPS 2017 application summary

- Update your personal and business details
- Give someone else (like an agent) permission to act on your behalf
- View your BPS entitlements
- See and print digital maps of your land parcels

Now the 2017 application period is over, you cannot use the service to:

- edit land use
- add or delete common rights
- make an active farmer declaration for BPS 2017

RPA will let you know when you can do this for BPS 2018.

From 15 May, it was not possible to:

- transfer entitlements to use in the BPS 2017 scheme year – either online or using an RLE1 form
- transfer land using the Rural Payment service (You can use an RLE1 form for land changes during the BPS 2017 scheme year, as long as the land was at your disposal on 15 May)

RPA will let you know when you can do this for BPS 2018 using the Rural Payments service, so you don't need to send an RLE1 form.

How to use the Rural Payments service – help is available

There's help onscreen in the service to guide you if you get stuck (you can also

[download a copy of the onscreen help](#)

(PDF, 2.45MB, 55 pages)

)

Updates to digital maps on the Rural Payments service

The Rural Payments Agency (RPA) is making a number of updates to digital maps, this started in August 2017 and will continue through into autumn 2017. For more information on these updates please see the [RLE1 page](#).

To view your individual land parcels, go to:

www.ruralpayments.service.gov.uk/. From the 'Business overview' screen, click 'Land' then 'View land'.

We will use these land updates to calculate BPS 2017 payments.

Financial Discipline Mechanism Reimbursement

Each year the European Commission uses some of the BPS budget to create a 'crisis reserve'. This is used to support the farming industry in times of crisis, such as disease outbreak. To do this – and to make sure that the overall European budget for BPS is not exceeded – a mechanism called 'financial discipline' is used. 'Financial discipline' means BPS payments across all Member States are reduced.

If the FDM funds have not been used to relieve a crisis, they are reimbursed to eligible farmers in the following scheme year. Farmers with a 2017 BPS claim worth more than €2,000 will receive a reimbursement from the 2016 FDM fund.

Payments will start from early October 2018. The payment is called 'FDM reimbursement' on the remittance advice, which is being sent after a payment is made.

The rate to use to calculate the reimbursement for 2017 is 1.310%. RPA takes a farmer's claim value, removes the first €2,000 and any reductions if they apply (but not cross compliance penalties), then multiplies this by 1.310%. They take the resulting amount and remove any cross compliance penalties from it.

Here's an example:

A farmer has a claim value of €10,000

The reimbursement does not apply to the first €2,000:

$$€10,000 - €2,000 = €8,000$$

The reductions (not including any cross compliance penalties, for example, a late claim penalty) that apply to the 2017 claim = €200

$$€8,000 - €200 = €7,800$$

$$\text{FDM reimbursement is } €7800 \times 1.310\% = €102.18$$

A 5% cross compliance penalty applies:

$$€102.18 - 5\% = €97.07$$

The FDM reimbursement is €97.07

Some farmers may receive a further payment under FDM for previous years.

Planned maintenance of the Rural Payments service

There will be times when the Rural Payments service is unavailable because of essential planned maintenance and updates.

Check [‘Rural Payments: registering and updating your details’](#) to keep updated about availability of the Rural Payments service.

Forgotten your online password?

If you’re logging in with a Customer Reference Number (CRN) and have forgotten your password, you can create a new one from the [sign-in page](#).

Click ‘Having trouble signing in?’ then ‘create a new one’.

If you can’t remember your CRN, call RPA on 03000 200 301.

Corporate report: Waste Forecasting Form: WSC-FOR-WFO

Updated: Updated to version 4.0 (August 2018)

Form to be completed by customers wishing to use LLWR's Waste, Logistics or Characterisation services.

Research and analysis: Carrier bag charge: summary of data in England

Updated: Updated following further checks with retailers. The total voluntary donation figure for 2017 to 2018 has been revised due to errors in reporting. Other minor revisions have been made to the donation, gross and net proceeds figures for 2016 to 2017 only.

Since 5 October 2015, large shops in England have been required by law to charge 5p for all single-use plastic carrier bags. They are required by law to report certain information to Defra, and they provide other information on a voluntary basis.

These publications summarise the data collected by Defra for:

- the second year – from 7 April 2017 to 6 April 2018
- the first full year – from 7 April 2016 to 6 April 2017
- the first 6 month reporting period – from 5 October 2015 to 6 April 2016

We publish the [full datasets on data.gov.uk](#) including:

- [Single-use plastic carrier bags charge, England methodological summary \(2017-18\)](#)
- [Single-use plastic carrier bags charge, England data \(2016-18\)](#)
