

Statutory guidance: Radioactive contaminated land: statutory guidance

Updated: We have updated the definitions to bring them in line with recent regulations.

This guidance is intended to explain how local authorities should implement the radioactive contaminated land regime, including how they should go about deciding whether land is 'contaminated land'.

Statutory guidance: SR2009 No 4: combustion of biogas in engines at a sewage treatment works

Updated: We updated SR2009 No 4: combustion of biogas in engines at a sewage treatment works.

Standard rules and generic risk assessment for compression and spark ignition engines with an aggregated total rated thermal input of less than 5 megawatts to burn biogas produced from the digestion of sewage sludge at a sewage treatment works.

You can apply online for most standard rules environmental permits.

Transparency data: Environment Agency organisation structure chart

Updated: Updated with new chart October 2018.

This shows the Environment Agency organisation structure at a high level, including some of our management team for national and area teams.

You can also see a map of our [operational areas](#).

We update the organisation chart every few months.

If you need help contacting the right part of the Environment Agency, please get in touch with our general enquiries team:

[Transparency data: Bovine TB: compensation value tables](#)

Updated: Added the October 2018 compensation table.

Compensation is paid according to published table values for any cattle compulsorily culled to control the spread of the following diseases:

- bovine TB
- brucellosis
- enzootic bovine leukosis

In the [guide to compensation for animals culled to control animal diseases](#), you can read about how the Department for Environment Food and Rural Affairs (Defra) gathers information for the tables.

This publication page provides value tables for historical compensation claims and for reference.

[Compensation tables for 2017 and earlier](#) can be found on the National Archives website.

Guidance: Guidance on the scope of and exemptions from the radioactive substances legislation in the UK

Updated: Guidance updated to align with revisions to the Environmental Permitting (England and Wales) Regulations 2016 and the Radioactive Substances Act 1993 which implement relevant aspects of European Council Directive 2013/59/Euratom.

The legislative means by which radioactive substances are regulated in the United Kingdom differ according to devolved administration; however, the effects of the legislation are consistent.

This guidance, aimed at environmental regulators and users, sets out:

- the rationale underpinning the exemptions regime for England, Wales and Northern Ireland
- how government intends the regime to be interpreted and implemented
- the means by which the objectives of the exemptions regime should be delivered.

This guidance does not apply to Scotland.
