

# Statistical data set: Structure of the agricultural industry in England and the UK at June

*Updated:* Updated dataset: UK annual time series: 1984 to 2018.

These data series show land and crop areas, livestock populations and agricultural workforce estimates for England and the UK as at 1 June each year. The results come from the long-running June surveys of agriculture and horticulture that are carried out each year in England, Scotland, Wales and Northern Ireland. The information includes long-term trends or detailed results for different types of farm, farm size or geographical area. The series are updated as new results become available.

The sample size for the June survey changes each year depending on UK and EU requirements. In years such as 2010 and 2013 when the EU requires very detailed information on the structure of the UK agricultural industry the sample size is increased. This enables us to produce good quality estimates for detailed geographies in those years. In other years the sample size is smaller to reduce the burden on farmers and we do not produce detailed breakdowns in those years.

## **To be reviewed**

The following sites are on the current programme to be reviewed.  
Unfortunately in some cases the department no longer holds copies of the

relevant byelaws listed below or byelaws do not currently exist and consequently in these cases no active hyperlink is in place. It is possible, however, that copies may still be held in local county record offices, but no physical check has been made by MOD.

## Lapsed

Over the years the MOD has sold or transferred the freehold or relinquished the leasehold at a significant number of sites that were once the subject of byelaws. This list may also be helpful in showing for environmental and historical research those areas of the country once occupied by MOD. Unfortunately in some cases the department no longer holds copies of the relevant byelaws listed below and consequently in these cases no active hyperlink is in place. It is possible, however, that copies may still be held in local county record offices, but no physical check has been made by MOD.

## Revoked

Over the years the MOD has reviewed existing byelaws, in the process revoking previous byelaws. The MOD has also revoked byelaws on land that is in the process of being disposed of. This list may be helpful in showing for environmental and historical research those areas of the country once occupied by MOD. ## **Guidance: Protected food name: Cornish sardines**

*Updated:* Change of wording due to approval of amendment and update of product specification document.

This document provides detail on a protected food name product from the UK, Cornish sardines, which has been given Protected Geographical Indication (PGI) status.

The EU [protected food name scheme](#) covers regional and traditional foods whose authenticity and origin can be guaranteed.

The EU will only give a product the PGI mark if they decide it has a reputation, characteristics or qualities that are a result of the area it's associated with.
