

Czech Republic: EIB and CSOB Leasing join forces to support SMEs and mid-cap companies impacted by the COVID-19

©CSOB Leasing

- **EIB provides a €130 million loan to CSOB Leasing**
- **To benefit small, medium and mid-cap businesses located in Cohesion areas**
- **Supporting innovation and skills in Czech Republic**

The European Investment Bank (EIB) signed a €130 million loan (equivalent to CZK 3.42 billion) with CSOB Leasing (Ceskoslovenska Obchodni Banka Group), a leading leasing company in the Czech Republic, to support SMEs and mid-cap companies impacted by the COVID-19 pandemic.

CSOB Leasing provides a complete range of asset financing for vehicles, machinery and equipment. It serves both corporate and retail customers, through its national network.

EIB Vice-President Lilyana Pavlova said: “The Czech Republic is a very open, export-driven economy and hence hard hit by the COVID-19 crisis, and especially small businesses, which are the backbone of the Czech economy. EIB’s timely support addresses the financing needs of SMEs and mid-caps companies and is crucial to avoid further damages to the economy. This loan is part of EIB’s immediate response to the economic crisis caused by the Covid-19 pandemic, aimed at mitigating systemic impacts, sustaining

employment, and creating the necessary conditions for future growth after the pandemic. I am very pleased to join forces today with CSOB Leasing to support the resilience of the Czech economy.”

This loan is part of the €5 billion ‘EU programme loan response to COVID-19 crisis for SMEs and mid-caps 2020-2025’, implemented by the EIB to tackle the economic crisis caused by the pandemic across the EU.

Ms Monika Zahalkova, CEO of the Czech Banking Association, said: “The Czech Banking Association welcomes the efforts of Czech banks and their subsidiaries to support small and medium-sized enterprises and larger companies (so-called midcaps) in overcoming the consequences of the coronavirus crisis. It is gratifying that in this case this is happening in cooperation with the European Investment Bank, whose products have traditionally been offered by our banks on the Czech market for many years, and that both sides are ready to continue this cooperation”.

Mr. Pavel Prokop, CEO of CSOB Leasing added: “Our cooperation with the EIB is a longer-term project in which the investment needs of small and medium-sized enterprises in the Czech Republic are financed. We are pleased that its purpose is the support of acquisition of new or more environmentally friendly machines, equipment and technologies of a production nature by Czech entrepreneurs to replace old and less climate-friendly infrastructure. With the help of this equipment, Czech companies can develop or expand their business, increase competitiveness on the market and thus create new jobs in the Czech Republic.”

About the ČSOB Group

ČSOB Leasing provides a complete range of asset financing for vehicles, machinery and equipment. It serves both corporate and retail customers through its national network and is part of the strong ČSOB financial group, a leading player on the Czech banking market. Our motto “Digital with a Human Touch” best expresses the ongoing investments into innovation and digitization, which make it easier and more efficient to serve our clients at our branches and online. Our services are available 24/7. We build on a unique bancassurance model that offers everything under one roof to address your financial needs – from banking services under the ČSOB and Poštovní spořitelna brands, insurance from ČSOB Pojišťovna, to home loans from Hypoteční banka and Českomoravská stavební spořitelna, ČSOB Penzijní společnost, ČSOB Leasing, ČSOB Asset Management, ČSOB Factoring and Patria Finance. We provide services to all types of clients, including individuals, SMEs and a corporate and institutional clientele. The ČSOB Group is part of the international bancassurance KBC Group, which is active in Belgium and the CEE region.

Press release – COVID-19: deal to give go-ahead to the new Recovery and Resilience Facility

The text, agreed on Friday by negotiators from Budgets and Economic and Monetary Affairs committees with the Council, lays down the objectives, financing and rules for accessing the Recovery and Resilience Facility (RRF) funding. With the agreement on RRF, the last and biggest building block of the Next Generation EU has been put in place.

Eligibility to receive funding

Negotiators agreed that national recovery and resilience plans would be eligible for financing if they focus on six policy areas of European relevance – the green transition including biodiversity, digital transformation, economic cohesion and competitiveness, social and territorial cohesion, institutional crisis-reaction and crisis preparedness, as well as policies for the next generation, children and youth, including education and skills. Finally, the RRF will only be made available to member states committed to respecting the rule of law and the European Union's fundamental values.

Each plan will contribute at least 37% of its budget to climate and at least 20% to digital actions. According to the deal, the plans should have a lasting impact on EU countries in both social and economic terms and provide for comprehensive reform and a robust investment package. Furthermore, measures to implement reforms and investments projects included in RRF plans cannot significantly harm environmental objectives.

Availability of funding

The amount of €672.5 billion in grants and loans will be available to finance

national measures designed to alleviate the economic and social consequences of the pandemic, from 1 February 2020 onwards. The funding will be available for three years and EU governments can request up to 13% pre-financing for their recovery and resilience plans.

Payments of financial contributions to member states will be made by 31 December 2026.

Recovery and Resilience Dialogue

Every two months, the Commission (responsible for monitoring the implementation of the RRF) may be invited by EP committees to discuss the state of the EU recovery and how the targets and milestones have been implemented by the member states. The Commission will take EP opinions, including EP resolutions, into account. To facilitate this discussion, the Commission will transmit the member states' plans to Parliament and Council at the same time.

Transparency

To provide comparable information on how funds are being used and allow their use to be properly checked, the Commission will make an integrated information and monitoring system available to the member states .

Quotes

[Siegfried MUREŞAN](#) (EPP, RO), one of the lead MEPs said: Since the COVID-19 crisis began, Parliament has acted constructively and without delay so that help reaches EU citizens as soon as possible. The Recovery and Resilience Facility agreed today is the first and most important part of the EU Recovery Package in response to the crisis caused by coronavirus. No one will be left behind. €672.5 billion will be available to people, enterprises and member states affected by the pandemic. Now we can say that we managed to deliver to our citizens.”

[Eider GARDIAZABAL RUBIAL](#) (S&D, ES), one of the lead negotiators said: “The RRF is a double win; in the short term, it will mitigate the social impact of the COVID-19 crisis. In the long term, it will allow us to take a major step towards a green and digital transition. With this agreement, we have finally achieved one of the EP’s long-standing demands!”

[Dragoş PÎSLARU](#) (Renew, RO), one of the lead MEPs involved, said: “We believe we will only recover together as a Union. So we insisted EU recovery money must go to EU priorities. Among those are policies for the next generation. That means investing in education, reforming with our children in mind and doing our bit for youth to help them get the skills they’ll need. We don’t want the next generation to be a lockdown generation. The COVID-19 crisis has taken its toll. This Facility must bring them hope.”

Next steps

The two committees must now approve the agreement, before putting it to a plenary vote. The Council must also approve the deal.

In Brief

Parliament will also vote on a resolution on breaches of human rights regarding the deteriorating situation in Egypt.

Votes

During the **first voting session** from **9.30-10.45** (results announced at **13.00**), MEPs will vote on amendments to the reports and resolutions mentioned above.

They will cast their **final votes** during the **second voting session** from **13:30-14.45**, with **results** announced at **17:00**.

The part-time session will be closed after results are announced.

[**France: Ages & Vie speeds up development supported by the signature of a first €55m loan agreement between Korian and the EIB**](#)

©Cristian Newman/Unsplash

- **First financing agreement between the European Investment Bank (EIB) and the Korian group for €55 million**
- **A loan guaranteed by the European fund for strategic investments**
- **67 Ages&Vie projects under construction for completion in 2021 and early 2022**
- **An inclusive, local solution in the heart of priority communities**
- **Buildings that have a positive environmental impact (HQE – NF Habitat standard)**
- **4,000 beds to be operating by 2024 on French territory**

Korian, the leading European care services group for elderly and fragile people, has signed a €55 million loan agreement with the European Investment Bank (EIB), the EU bank. This 10-year loan will finance Korian's capital contribution to SCI Foncière Ages&Vie, created in May 2019 and jointly owned with Banque des Territoires and Crédit Agricole Assurances, which will invest in developing the Korian group's network of Ages&Vie properties.

Ages&Vie develops shared housing locations, which represent an innovative alternative housing solution for senior citizens. Shared housing lies part way between living at home and living in a long-term care nursing home, and is particularly well suited to the needs of the elderly in rural and semi-rural areas because it allows them to remain in their local town or village where they have often lived most of their life, while also enabling carers to find work close to home.

The EIB's funding is guaranteed by the European fund for strategic investments (EFSD), the central pillar of the Investment Plan for Europe. It will help Korian increase the coverage of the Ages&Vie network across France,

particularly in “social cohesion zones”, which are regarded as priority areas in European Union policy. The network has the constant support of local elected officials, especially since it benefits the local medico-social ecosystem (doctors’ surgeries, nurses, pharmacies etc.).

The residences will also meet the highest environmental construction standards, for example obtaining the HQE (high environmental quality) – NF Habitat label.

« I am very pleased to sign this first partnership with Korian Group. This is an innovative project with a high social and environmental impact. » said **Ambroise Fayolle, EIB Vice-President**. He added: « As Europe’s climate bank, our priority is to support sustainable infrastructure projects that have a strong link with local communities. It is equally important to develop in France innovative cohabitation solutions for elderly persons in the areas where they have lived. By doing so, we promote employment and territorial cohesion. »

Commissioner for the Economy, Paolo Gentiloni, said : « *With the support of the Investment Plan for Europe, this EIB financing will allow the Korian Group to develop the Ages&Vie initiative, which offers innovative co-living solutions for elderly people in France. By enabling senior citizens to remain close to their communities and creates new jobs in less developed regions, this is a win-win situation for both regional and social cohesion.* »

When it was acquired by Korian in 2018, the Ages&Vie network comprised 34 locations. At the end of 2020, it will have 70 active locations across eight French *départements*.

The network is expanding rapidly, with 67 new locations representing more than 1,000 beds in 33 *départements* scheduled for completion in 2021 and early 2022.

By 2024, Ages&Vie aims to have a network of more than 500 shared housing locations, representing more than 4,000 beds in 70 *départements*. With the various services offered, Ages&Vie will employ 1,500 people and is aiming for annual service revenue of more than €100 million in France. This network will eventually represent a real estate value of 500 million euros.

« As a European group, we are delighted to have arranged this loan with the lending arm of the European Union, whose role is to fund projects that will have a transformative long-term impact in Europe, » said **Sophie Boissard CEO of Korian**. « *Ages&Vie is a local solution on a human scale, popular with the elderly and their families, which perfectly meets the needs of the regions. We are convinced that it is a concept with a future in France and in Europe.* »

Rights and values programme: Council presidency and European Parliament reach provisional agreement

The presidency of the Council and the European Parliament reached a provisional political agreement on the rights and values programme for the period 2021-2027. Funding through this programme aims at protecting rights and values enshrined in the EU treaties in order to sustain open, democratic and inclusive societies. It will have a substantial overall budget of maximum €1.55 billion.

In recent years, extremism, radicalism and division have grown in our societies while the space for independent civil society is shrinking. It is therefore more important than ever to promote the values that bring us together and to defend the equal rights of all our citizens. This programme will support civil society initiatives across the EU. We strengthen our democracies and the rule of law.

Christine Lambrecht, German Federal Minister of Justice and Consumer Protection

The programme will have a budget of €641.7 million, with an additional allocation of maximum €912 million and it sets out four specific objectives:

- to promote equality and rights, including gender equality, anti-discrimination and the rights of children
- to promote citizens engagement and participation in the democratic life of the EU and to raise awareness of the common European history
- to fight violence, notably against children and women
- to protect and promote EU values

The newly introduced objective to protect and promote EU values will receive a substantial allocation of € 689.5 million

An amount of € 91.2 million will be left unattributed so as to be able to tackle any emerging needs and future challenges.

To achieve this, the programme will support civil society organisations and other stakeholders active at local, regional, national and transnational level, and encourage civic and democratic participation.

The provisional political agreement reached today will have to be approved by the European Parliament and the Council. The necessary steps will be undertaken at the beginning of next year.
