Mark Drakeford announces additional £20m for social care in 2017-18

The extra funding announced today is on top of the £25m for social care provided to local authorities through the Revenue Support Grant and £10m to help meet workforce cost pressures in the final 2017-18 Budget.

It brings the additional investment for social care to £55m in 2017-18, which is in line with the extra investment made in social care in England.

Announcing the funding today, Professor Drakeford said:

“This announcement demonstrates the importance that we attach to our social care sector.

“Despite the cuts we have seen to our budget, we have continued to prioritise funding for social care and taken specific measures to support the sustainability of the social care sector, including investing £60m through the Intermediate Care Fund to support the integration of health and social care.

“The extra £20m announced today provides an important boost and brings our total additional investment in social services to £55m in 2017-18.”

Minister for Social Services and Public Health Rebecca Evans added:

“The social care sector is of national strategic importance to the Welsh Government.

“When combined, this £55m of funding shows that once again Wales is leading the way when it comes to ensuring that social care is properly financed and resourced.”

[Xinjiang to train 2,000 professionals from ethnic minorities by 2020](#)

Northwest China’s Xinjiang Uygur Autonomous Region plans to train 2,000 technological professionals from ethnic minority origins by 2020, local authorities announced Monday.

Over four years, Xinjiang will select professionals under the age of 45 to join a training program for certain major industries such as coal chemicals, petrochemicals, mineral exploration, transport and environmental protection.

They will receive training and gain practical experience in universities, scientific research institutions, enterprises or public institutions for one year, according to the regional department of human resources and social security. The training program is expected create experts in its respective fields.

The department’s statistics show that 4,772 professional personnel from 14 ethnic groups in Xinjiang have received such training since 1992, when the country introduced a special program to train professionals of ethnic minority origins in the key areas of science and technology.

Statement to Parliament: South Western rail franchise

I am pleased to inform the House that following a rigorous competition I intend to [award the South Western rail franchise to First MTR South Western Trains Limited](#) pending the successful completion of a standstill period of at least 10 days.

The House will know that this government is determined to transform the way that the railways work to deliver a revolution in services for passengers. In December 2016, I set out my vision for achieving this through a [new era of joined up working between train operators and Network Rail](#). Earlier this month my Department announced a [consultation on the South Eastern franchise](#) which explained our ambition for bringing together the operation of track and train, so that one team of people is focussed on providing the best service to passengers. Today's announcement that First MTR South Western Trains Limited has been awarded the South Western franchise means we are a step closer to achieving that ambition.

The new franchise will see closer partnership working between track and train. A railway that is predominantly run by an integrated local team of people with a commitment to the smooth operation of their routes, improving services and performance is at the heart of my vision for the network, and First MTR South Western Trains Limited expects to work even closer with Network Rail with the shared aim of giving passengers exactly that. The joint teams will work to drive higher performance, achieve greater productivity in operations, improve maintenance delivery and infrastructure renewals, and support infrastructure improvement delivery, all for the benefit of passengers across the South Western network.

The new franchise will run for 7 years from 20 August 2017 to 18 August 2024, with an extension of 11 railway periods callable at my discretion.

This is the thirteenth franchise award since 2013: a rapid programme of renewal which represents the government's determination to transform the travel experience for rail passengers across the country. In the last 12 months alone, new franchise agreements have released private funding for brand new trains in the north and the east of England. The new South Western franchise will also see investment in brand new and refurbished trains.

This government is funding the biggest investment in rail since Victorian times, and the award of this new franchise is the latest step in making journeys better: simpler, faster and more reliable. Passengers across the South Western network will see improvements to their journeys, whether travelling into central London, or between the towns and cities in the southern and south-western counties of England. The new franchise will support the communities and boost economic growth in the regions it serves.

Passengers, local authorities, businesses and other stakeholders across the area contributed to a highly demanding and challenging specification for the new South Western franchise. Bidders were invited to demonstrate how they would meet this specification, and I am delighted that First MTR South Western Trains Limited set out an exciting plan for the franchise that will not only meet but significantly exceed these expectations.

First MTR South Western Trains Limited will oversee a £1.2 billion investment programme to improve services for passengers on all parts of the network from London to the South West. There will be 22,000 extra seats into London Waterloo each morning peak and 30,000 extra seats out of Waterloo each evening peak, and a fleet of 90 new trains will provide more space for passengers on Reading, Windsor and London routes.

The plans were designed to make optimum use of our major investment to increase platform capacity at London Waterloo. First MTR South Western Trains Limited will use the experience of one of its major shareholders MTR, who operate the busy Hong Kong metro, to deliver smooth and rapid journeys for passengers travelling around London's suburban network. Faster journeys will be delivered through a consistent fleet of new suburban trains offering a regular, metro-style service. Passengers can look forward to more space, ensuring that the railway can support London's growth.

The train journey is only one part of the passenger experience, so we were very pleased with First MTR South Western Trains Limited's plans for significant investment in station improvements. They will deliver at least 1,500 new car park spaces, refurbished waiting rooms, more seats and new waiting shelters. There will be investment to make Southampton Central station a destination fit for the community it serves, with a new entrance canopy, improved retail, and better facilities for passengers.

The use of smart cards will be expanded, and there will be a new smart card product, automatically offering the cheapest walk-up single or day return fare. A new flexible season ticket will benefit people working fewer than 5 days a week, there will be a discount offered for people buying 12 consecutive monthly season tickets, and new discounts for student travel. Season, single and return tickets will be made available on smart cards across all of the franchise.

I am pleased to announce also that the new South Western franchise will introduce new delay repay compensation, including for delays of 15 minutes or more, and with automatic claims for smart card season tickets and advance purchased tickets bought through their digital channels.

There will be better information for passengers, so that they can make more informed decisions about their journeys. Real time information will be available on screens on trains and at stations, as well as on the website, and through the new customer app. Station staff will also be well informed through innovative use of smart devices so they can better help passengers, especially during times of disruption. There will also be live information about seating availability and crowding levels, so that passengers know the best place to stand to board the train.

Reflecting the government's commitment to create 30,000 apprenticeships across all transport modes by 2020, First MTR South Western Trains Limited will offer more than 100 apprenticeships each year. Their plans also include funding to support community rail partnerships, station adoption groups, and to encourage community use and regeneration of available station space. The franchisee will reduce energy use at stations and depots by over 40%, and water use by over 18%.

This government has set a clear vision for the future of rail travel and is investing to deliver on that vision for passengers across the country. Over the past few years the franchise renewal programme has resulted in significant new investment and exciting innovations for passengers. The new South Western franchise represents the next chapter in that journey and we look forward to working closely with First MTR South Western Trains Limited and Network Rail to ensure that passengers receive the improvements they have demanded as we transform their rail travel experience.

[News story: First MTR South Western Trains Limited wins South Western franchise](#)

We are determined to transform the way that the railways work to deliver a revolution in services for passengers. Two weeks ago we announced a [consultation on the South Eastern franchise](#) which explained our ambition for bringing together the operation of track and train, so that one team of people is focussed on providing the best service to passengers. And today (27 March 2017) we can announce that First MTR South Western Trains Limited has been awarded the South Western franchise which will run for 7 years from 20 August 2017. This is the first franchise awarded since the Secretary of State set out his [vision for the future of the railways](#) in a speech on 6 December 2016, and marks a new era in joined up working between train operators and Network Rail.

First MTR South Western Trains Limited will use the experience of one of its major shareholders MTR, who operate the busy Hong Kong metro, to deliver smooth and rapid journeys for passengers travelling around London's suburban network. Faster journeys will be delivered through a consistent fleet of new suburban trains offering a regular, metro-style service. Passengers can look forward to more space, ensuring that the railway can support London's growth.

Passengers travelling across the South Western network will also benefit from more space and faster rail services as the new 7 year South Western Franchise has been [awarded today to First MTR South Western Trains Limited](#).

Transport Secretary Chris Grayling said:

Following on from our announcement on the start of the South Eastern Franchise consultation, this deal is more great news for rail passengers.

First MTR South Western Trains Limited will deliver the improvements that people tell us they want right across the South Western franchise area, from Bristol and Exeter, to Southampton and Portsmouth, to Reading, Windsor and London.

We are delivering the biggest rail modernisation programme for over a century and this franchise will deliver real changes for passengers, who can look forward to modern trains, faster journeys and a more reliable service.

The new franchise will see closer partnership working between track and train. A railway that is predominantly run by an integrated local team of people with a commitment to the smooth operation of their routes, improving services and performance, is at the heart of Secretary of State's vision for the network and First MTR South Western Trains Limited expects to work even closer with Network Rail, with the shared aim of giving passengers exactly that.

First MTR South Western Trains Limited will oversee a £1.2 billion investment that will improve journeys for millions of train passengers, and provide a boost for the communities served. The next franchise will see:

- 22,000 extra seats into London Waterloo each morning peak and 30,000 extra seats out of Waterloo each evening peak
- a fleet of 90 new trains, providing more space for passengers on Reading, Windsor and London routes
- refurbished existing trains with charging sockets, new seat covers and refurbished toilets
- more frequent and additional services across the franchise
- faster journeys across the network; journeys to London will be:
 - 8 minutes faster from Southampton
 - 5 minutes faster from Portsmouth
 - 10 minutes faster from Reading
 - 12 minutes faster from Hounslow
 - 11 minutes faster from Salisbury
- earlier first and later last trains, including between London and:
 - Twickenham
 - Hounslow
 - Windsor
 - Reading
 - Epsom
 - Guildford
 - Portsmouth
 - Salisbury
- more Sunday services across the network, with many routes having the equivalent of a Saturday service after 1.00pm

The government is supporting record investment in rail that will not only deliver new world-class infrastructure but will create thousands of jobs opportunities across the country. The government is committed to creating 30,000 apprenticeships in the road and rail sector by 2020 and the new franchise will also see First MTR South Western Trains Limited offer more than 100 apprenticeships each year helping boost skills and jobs.

The new contract will see passengers provided with better information throughout their journey, on-board trains, on platforms and through a new mobile phone app, including live information on seating availability and crowding levels, so that passengers know the best place to stand to board the train.

The new contract will also see:

- investment to make Southampton Central station a destination fit for the community it serves, with:
 - a new look entrance
 - improved retail
 - better facilities for passengers
- new delay repay compensation, including for delays of 15 minutes or more, and with automatic claims for smart card season tickets and advance purchased tickets bought in advance through their digital channels
- free wifi at all stations and on-board mainland trains
- investment in station improvements including:
 - refurbished waiting rooms
 - additional seating
 - improvements for step-free access
 - 60 electric vehicle charging points
- new smart card, automatically offering the cheapest walk-up single or day return fare
- new flexible season tickets, offering a discount for passengers travelling fewer than 5 days a week
- season, single and return tickets on smart cards across all of the franchise
- new discount for purchasing 12 consecutive monthly season tickets
- new student connect smart ticket for 16 to 18 year-olds, offering one-third off weekly or longer tickets, and further term-time discounts for under 16s
- mobile phone barcode tickets will be available on the network for the first time
- better connections for the Island Line, and work with the Isle of Wight Council and other local bodies to develop a business plan and option for a more sustainable long-term future
- at least 1,500 new car park spaces
- over 40% reduction in energy use at stations and depots

FirstGroup Chief Executive Tim O'Toole said:

We are delighted that our partnership with MTR has been selected by

the DfT to run the South Western rail franchise, a key part of the country's railway network which millions of people rely on every day. Our successful bid will deliver the tangible improvements that customers and stakeholders have told us they want from this franchise. Passengers can look forward to new and better trains, more seats and services, quicker journey times, improved stations and more flexible fare options.

Jeremy Long, CEO – European Business, MTR Corporation said:

MTR is known across the world for the excellent quality of its rail services, and we look forward to working with FirstGroup to provide a best-in-class travel experience for passengers in London and the South West. Together we will deliver a major programme of upgrades, including improvements to both rail services and customer experience, for passengers travelling across the South Western network.
